The years go by- but I don't notice them

Sometimes a chance remark by friends, who know my age, reminds me I'm no longer a chicken as I'm on the down. But I *feel* as active as ever. I play a set game of tennis and bike with the youngsters.

I give credit for this, in the main, to the Parton tablet. Two nice, loose afternoon pills when my digestive tract needs a little help, remember, are all you require. That's all. I don't go in for any set diets. I just go happily and jaunty on the beautiful invigorating mid-day meal in the Parton formula.

IS A "TOUGH CUSTOMER" SAYS SASTRI

Fight Against Colour-Bar The Peace Conference

Unfortunately, things were in a sad state here, and there did not seem to be any possibility yet of these leaders [illegible]

Today, the news at Smuts carried further with the British statement, Mr. Churchill, thought that next to him, the Field Marshal was the man who mattered in the Empire. Unfortunately, the Field Marshal was not a man whose word was always carried out. Either he lacked, or he went back on it and he was very good at this.

A Final Solution

Smuts was, therefore, a very tough customer, and it would be well to know him in his own terms. He wanted the Boer civilisation which did not allow equality for coloured people to extend over the whole of Africa, except perhaps the areas occupied by the French, Belgians and others which might have to be conditioned some time. And, the English people could not afford to make him discontented.

The attitude of Smuts, and Hendrik Nicholls, the late Administrator of Natal, pointed to the one final solution adopted by us in terms specially reserved where we would go through a steady deterioration, materially and in every other way. Was this for the benefit of Indians at the end even of this war?

If all that Indians were to be allowed to do was to die for their nation in the war and, in return, not to be despised and exploited by them, it [illegible] to say that Indians, then there was no place for us in the Commonwealth. We would not be a people who could [illegible] prove practically driving us to do so, and the possibility of the establishment [illegible] of their coloured people with the white, we should never get such an opportunity again."

You premiers down had passed over the Assembly debate, Mr. Smuts continued, but the High Commissioner had not yet been recalled from South Africa, nor had we heard that any of the economic sanctions which the hon. Dr. Khare so frequently spoke of had been put into operation.

Unless we meant to do something, even if we only [illegible] to the end, we ought not [illegible]

CONGRESS REQUEST TO VICEROY

THE Natal Indian Congress has called a request to the Viceroy of India, Lord Wavell, asking him not to proceed with the dispatch to South Africa of a new High Commissioner for India in the Union.

The Natal Congress Executive, "The Leader" learned, decided that it was prepared to forgo the assistance and cooperation of the High Commissioner for India in the Union in the future, rather than see him placed in an invidious position in "this colour-ridden country."

MR. SASTRI

The Congress's cable to the Viceroy, which asked him not to send Mr. Ramaswami Sastri, Agent-General for the High Commissioner, to the Union, said that the Congress had been informed by Mr. Sastri himself, in a broadcast, that [illegible] ing over the heads of the Indian community would be conciliating to India and its national dignity.

It would be better that no Indian should come out to South Africa from Indian until India was in a position to command respect and honour for its representatives abroad, the message to the Viceroy added.

South Africa, it was stated in Congress circles, was a country in which the colour of a man's skin was regarded as of more importance than the man himself. Even a Spender, a Congress leader told "The Leader," was considered far higher and [illegible] than an Indian gentleman who came to this country with the educational hallmark of Oxford or Cambridge.

[illegible] was to make common cause with the black people, the Bantu men coarse from which, he had discussed [illegible] duties while he was there. If Indians and Africans, who formed several millions, and the Europeans were only two millions, [illegible] would happen; but it was all [illegible] the Europeans were [illegible] to do.

If a whole community was determined to be united and [illegible] oppression from all the [illegible] of the world, [illegible] Indians, [illegible] "Black Hell" (Hell), that in the midst of war, such steps should not be even thought of. Was the war a consideration only for us, Indians, and not for the whites?

Our people in Natal appealed to India, "Display all sanctions you can; never mind if we suffer, we are prepared to starve and die for the honour of our nation." We who wanted to protect them should give them an opportunity if we really meant to do something for them.

Railwayman's arm bandaged for years

"Eczema developed on my arm following a burn", writes Mr. L. F. Gardner, Bellbourne Road, Woodstock, "I was treated with lotions, and then with several ointments, none of which helped. For years I carried a bandage. Finally I tried Feloform Ointment, and I was amazed at the result from the first tin. I am now quite healed."

This is one out many letters received from people wishing to express their gratitude for relief from skin troubles of one sort or another.

Hundreds of sufferers from eczema and other skin troubles have obtained complete relief from pain, itching and disfigurement, by using the Feloform remedies. All chemists sell Feloform Ointment, Feloform Soap, Feloform Skin Powder, Feloform Blood Tonic and Feloform Shaving Sticks.

BUS DRIVER FORCED TO GIVE UP WORK AT 38

Official illness and sickness are demanded of a bus driver. It is therefore of interest to read how Mr. George Walters, of Owen's Road, Five Rock, Wales, conquered the

pain of lumbago and sciatica, which crippled him so intensely that he was forced to stop work at the age of 38 years.

Mr. Walters' words state: "After the first packet of H.U.B. I began to get back, and could at last stand up straight, and step to and fro in bed. He took a course, and am basically fit. I have not one pain left. I am back at work again, and can even stoop in the garden. I owe take H.U.B. Once a week, and am living my old life again."

H.U.B. is the name given to the new H.U.B. and Herbal tonic which is obtainable from all chemists and stores at the following prices: 8/6 for 1 lb. (or 2½ weeks' treatment) and 15/- for 2½ lbs. (a fortnight's treatment), which carries a money-back guarantee. Get a packet of H.U.B. today."

IN MEMORIAM

O. C. sorrowfully in treasured memory of our darling Wife, Nonhlanhla, and our dear Mother who peacefully passed away on January 25th, 1944.

We think of you in silence
And often recall your name;
What would we give to hear your voice
And see you smile again.
You left behind some aching hearts that
Loved you most sincere.
You are not today, but every day,
Though the tears in my eyes do not glitter
And our love does not always seem sad,
There never a night or a morning
I forget you, Nonhlanhla dear,
But I long for the wife I had.
Always remembered by her loving husband, sister, daughter, daughter-in-law and sons Denis and Percy.

I gave up worrying years ago

I found that worry was largely linked up with *bowels*, that is, with delayed bowel action. Keep bowels in regular healthy functioning and the worries of life, in the main, pass you by.

But when bowels can be, and in many cases, should effectively with a high class aperient, as in Partons, worry has no hold on which to grow.

The world looks different through eyes that are dull and lustreless from headaches depression and feverishness tells of intestinal congestion. But combine bowel cleansing with a tonic, as achieved in Partons, and the clouds of despondency roll away.

If you are a "worrier", change to Partons. Get digestive cleansing and nerve health in this combined medicine. Attack worry from the two basic angles of Nerves and Bowels.

Sold everywhere at 1/6 (12 pills) and 3/- (24 pills) in the Union. 3d. extra per bottle in Rhodesia.

...These were the years when European mothers responded to their firstborn's lack of interaction.

It would appear that the European is no less fertile than the Indian woman, but our economic system is such that it leaves the European to resort to contraception to his own detriment.

A disproportionate economic set would be that the Indian rate of increase is alarmingly high, only if compared to the alarmingly low figure of European increase. It remains this though, that the latter is alarmingly low by the declarative will of the European himself."

"That this meeting is strongly of the opinion that the policy of the Anti-Segregation Council is the only promise of salvation for the Indian people. This meeting, therefore, calls upon every Indian man and woman to join the Natal Indian Congress and to vote for the candidates of the Anti-Segregation Council.

Thirty-two meetings adopted the above resolution, organised by the Anti-Segregation Council.

OFFICIAL STATEMENT

INDIA TO INTERFERE IN UNION AFFAIRS

Until S.A. Indians Become Full Union Citizens

THE questions so far how long India will "interfere" in matters relating to the treatment of South African Indians was answered in the Indian Assembly by the Secretary of the Commonwealth Relations Department, the Hon. H. N. Hanegar, when he spoke at some length on the anti-Indian legislation in South Africa.

He said:

"One would assure the Government of India are unable to agree that they are interfering in the domestic affairs of South Africa. The both of the Indians of South Africa are the descendants of those whom the Government of India sent out in a spirit of helpfulness and sympathy. They have the support to develop their country, and to come in response to the importunities of the governments of the country.

The government of India cannot, therefore, abandon even now, and certainly not once for all, their moral responsibility for obtaining the recognition of the rights of their nationals as full citizens of the country of their adoption.

Once that goal is reached and all discriminations against them cease, the Government of India will have no further occasion to interfere in the affairs of the Union.

The struggle for this objective will certainly be brief, either now and in future, and we are not likely to stop till our goal is reached.

The Commis

THE Indian Judicial Commission appointed by the Union Government to inquire into the Durban riots and the causes which led to them, resumed its sittings in the Durban Supreme Court on Monday morning. Mr. Justice Broome presided, and the other members of the Commission are Mr. W. H. Watkins, Mr. H. Lawrence, Mr. H. C. Heaton and Mr. J. Kuper.

School Accommo

ONCE again the question of a High School for Indian children has arisen. This is a problem which has been with us for a long time. While the number of children who are compelled to remain without schooling at a frightening rate increases, little or nothing is being done about building new schools for these children. No new schools have been built since the Indian people started building and part of the Indian community has been responsible for providing the money for the building of these schools. The Administration will be the last thing in the matter and will be the last to put money up for the erection of these schools, whereas it is the Administration which is responsible to find the money for the education of the Indian children. The Administration has failed to provide adequate accommodation for the Indian children in Durban and the position will become worse as the years go by unless something drastic is done to remedy the situation. Unfortunately, to add to the difficulties, the Indian people have recently in the past that no interest in the education of their children, have failed to take advantage of the facilities which are provided for their children. Many children who should be at school are not there. Many children who are at school are not attending regularly. Many children who are at this stage and should be attending High School are not receiving the benefit of the High School education. Many children who have passed the Standard 6 examination are not proceeding further with their education. Many children who have passed the Standard 7 examination are not proceeding further with their education. Many children who have passed the Standard 8 examination are not proceeding further with their education. Many children who have passed the Standard 9 examination are not proceeding further with their education. Many children who have passed the Standard 10 examination are not proceeding further with their education.

CONSTITUTIONAL POSER

What is the constitutional position of European women married to Indians in relation to the forthcoming Congress elections? I gave up worrying years ago

People call me 'Laughing Larry'

They say I get on their Nerves sometimes, but that's only when they're grumpy and grumpy. I tell them to take a couple of Partons, as I do occasionally, and get rid of the tiredness fullness of constipation and resultant headaches.

Partons are *semi-aperient*. They act only slightly and gently. They tone up the Nerves and put vigour into tired bodies. Take a couple of Partons tonight *and prove their semi-aperient claims*.

that the Indian doctor ies inferior position in ld no hospital pra therefore, difficult for ent of the advances of Membership of the asso moreover advantages some into contact with ers would be able to ance of the associations and also his social functions.

Referring to the question of social functions Dr. Goonam said that membership of the association was on a basis of complete equality, and she

should shy away from the activities of the association.

She felt, however, that Indian doctors in Durban were slow of the mark. Most now also felt that there was not sufficient interest on the part of Indian medical men in the associations. Yet those very people who are particular, no matter in whatever sphere, are the first to cry out against discrimination.

It was not enough for the Indian doctor to be content with money-making. He should attempt to improve himself, and one of the ways to do this was to associate himself actively with the Medical Association.

Indian Women Pass B.A. with Distinction in English

TWO Indian women, Miss D. Bhoola-singh (Durban) and Miss D. G. Jonathan (East London) have passed the B.A. examination with distinction in English at Fort Hare. This is the first time that Indian women in this country have passed with distinction in that subject.

In the list of 25 graduates, including three Indian men, there is only one other who has secured distinction in English. There are six Indian women, three men and three women (the third woman is N. T. Maharaj, of Wandsbank).

Another outstanding Indian success at Fort Hare is that of S. Reddy, son of Dr. V. Reddy, of the Indian Immigrants Trust Board, who has passed the B.Sc. with distinction in both his major subjects, Chemistry and Physics, being the only one to secure double honours among the 21 passes in the B.Sc. examinations.

(See page 6 for full Indian results at Fort Hare.)

CONGRESS ELECTIONS

The forthcoming Congress elections raise some pertinent questions. How are the branches going to be represented at the elections? The postal registration make it impossible for all the members to travel to Durban. My branch feels that some form of amendment of the Constitution is overdue. The branches must hold their elections at their own centres before an independent Committee of Indians of a magisterial, or, alternately, postal voting must be introduced, after control out before an independent personage.

We wish the headquarters would take this matter up and make some arrangement whereby the suggestion above would be given effect to.
