STRICKEN DOWN IN PRIME OF LIFE - BUS DRIVER FORCED TO GIVE UP WORK AT 38

Physical fitness and alertness are demanded of a bus driver. It is therefore of interest to read how Mr. George Walgers, of Queen's Road, Five Rock, Sydney, conquered the

pain of lumbago and sciatica, which gripped him so intensely that he was obliged to stop work at the age of 38.

Mr. Walgers' words state: "After the first packet of R.U.R. I began to get relief and could at last stand up straight, and sleep returned to me. I then took a course, and can honestly say I have not one pain left. I am back at work again, and can even do the garden. I now take R.U.R. twice a week, and am feeling my old self again."

R.U.R. is bound to do you good. So take R.U.R. and Right You Are.

WEEKEND RESULTS AT VARIOUS CENTRES

Stella-Shamrocks and Warwickshire-Stars matches were outstanding at Clontarf, Foxton last weekend. Stella were first to score and the game was exciting. May was transferred from one end to the other and Shamrocks got the equaliser before half-time. After interval both sides were pressing for a lead, but towards the closing stages Stella were able to get the winning goal.

Stella-Warwickshire match provided many anxious moments and the ball was transferred from one area to the other, but the efforts of both sides proved fruitless, as no score was registered. On resumption the game was still evenly balanced, both sides trying hard for an advantage. It was in the last ten minutes that Warwickshire were able to score twice and thus the match terminated.

Results:

Clontarf: Schools 2, Sydneyham 0; N.W. Rangers, scratched; Mansfield Boksburg 2-0.

Juniors: Avondale 3, Westridge 0; Juveniles: Central 1, Greyville 1, Stella 2, Sars College 1, Hillview 1, Grey-Stars 3, College 0.

DIVISION OF NATAL PROPOSED

Committee Appointed to Investigate

An interesting debate took place at a meeting of the division of Natal on the question of the division of Natal into two provinces, one of which would be the Natal province and the other the Natal province.

The officials, who were in favour of the division, focused opinion on the fact that the Natal province would be a large and powerful province, and that the Natal province would be a small and weak province.

P. R. PATHER GOES IN— AND THEN OUT OF GAOL

Some "Malefactor" Again Pays His £20 Fine

MR. PATHER has lost faith in the bona fides of the Government on the particular issue of the Pretoria Agreement.

This is what he told me when I interviewed him after his confinement on Wednesday morning in the grill, where he was waiting to be transferred to gaol for a change of clothes and hard labour, writes a Leader reporter.

He now feels that it will be difficult for the Government to proceed with the Pretoria Agreement, as he was a party to that agreement, and in view of his imprisonment his side of the case cannot be heard.

He had previously believed that some work of agreement on the question of the Pretoria Agreement would be reached but now, he is taking action against him while the Licensing Board is still under discussion, the Government has torpedoed all possibilities of a harmonious settlement of the issue.

Mr. Pather told me that he would have reconsidered his attitude about residing in Moore Road if the Government had not precipitated matters. He had been prepared to move away from Moore Road on three conditions: firstly, the proceedings against him to be withdrawn;

"LEADER" INTERVIEW IN THE GRILL

secondly, Durban be deproclaimed from the operation of the Licensing Act; and, thirdly, the passing of the Ordinance which would create the Licensing Board.

This action on his part would have been an indication of his sincerity on the question of occupational restrictions. Now, however, there could be no going back. He stood for the total repeal of the Licensing Act.

Mr. Pather declares that he will remain in prison but he will not remove from Moore Road. He is emphatic. In this way he feels that he may be able to contribute in some tangible way but, in the struggle of the community to realise its rights. In a way it was now a fight with the gloves off.

First labour for Mr. Pather means probably, I learn, one of the following three things: clerical work, gardening or tailoring.

What everybody is looking forward to now is whether that gentlemen will serve the suspended portion of Mr. Pather's sentence, which provides for two months' imprisonment with hard labour without the option of a fine.

Magistrate's Judgment

Wednesday morning P. R. Pather appeared before Mr. H. H. Kitchner, Durban Magistrate's Court, on a charge of contravening the Licensing Act, but he lived in 232 Moore Road, a dwelling situated in a predominantly European area, and which has been exempted for Indian occupation.

Kitchner, in his judgment, said: "I have given deep and serious consideration to the right and wrong of the law in my power to decide. I am to bring the law into operation, but I realise that what you have now is a mark of justice of the Pretoria Agreement, which I cannot take into consideration in terms of the law provision is for the ordering of your removal from the premises for six months' imprisonment, but this I leave in your hands to decide whether to go to gaol or not. Use your own common sense to decide on your free will."

He then sentenced Pather to a fine of £20 or two months' imprisonment, with a further two months' sentence which will be added should you vacate the premises by June 20.

Pathe submitted the following statement to the Court:—

"I have made this statement to the Court on January 12, 1944. I was sentenced to the Court by six previous cases for contravening the Licensing Act, which I have known as the 'Paging Act'. I intended to serve my sentence, but my wife, unknown to me, had no money. I, therefore, upon an unkind use of my flag."

"I was charged before this honourable Court on precisely the same charge of contravening the Licensing Act, but in that case it is stated that I was in the occupation of the dwellings at No. 232 Moore Road, which was used for my personal use and that I was a European."

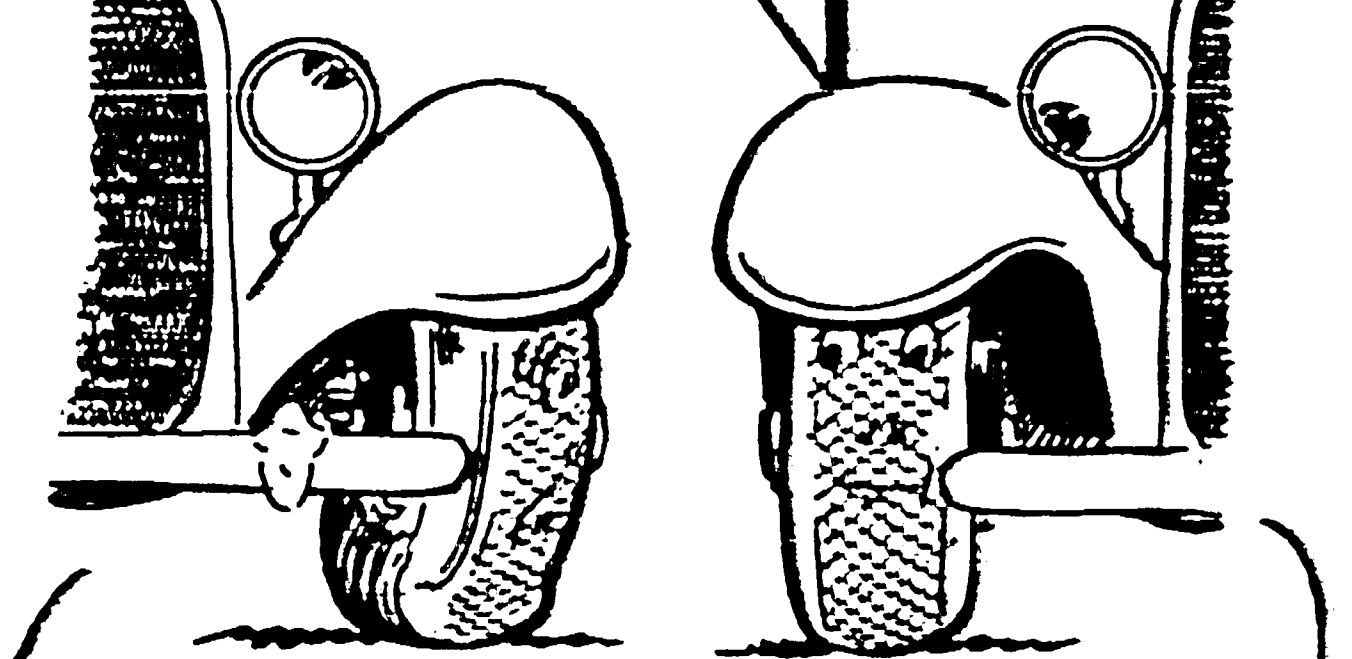

"I submitted a written statement, which I submitted to the Court in my previous case on January 12, 1944. I made it quite clear that I was not a European, but was a member of the Indian community, and was a member of the Indian community."

PENICILLIN GROWTH ACCELERATED
Indian Scientists Evolve New Method

NIGHT months of research by two young scientists in the Department of Bacteriology of the Indian Institute of Science has brought Penicillin to India, says the Bangalore correspondent of the Times of India. The two research workers, Messrs. S. Srinivasa Rao and S. P. De, have succeeded in growing Penicillin in fairly large quantities and have evolved a method by which Penicillin moulds to grow fully, the method evolved at Bangalore has reduced this incubation period to three days, during which maximum antistaphylococcus aureus activity is reached.

THE medium employed, wheat bran, is the secret of their success. In Western laboratories penicillin is grown in a solution of either sugar or glucose. This method involves handling large volumes of the solution.

Mr. Srinivasa Rao, while working on fungus metabolic products involving the use of wheat bran, decided to experiment with the bran for the growth of penicillin.

It has now been found that penicillin grown on a wheatear medium has an average activity of 30 Oxford Units per gramme, whereas that produced from sugar or glucose solution yield only three to four units per gramme.

The first penicillin culture for the work was obtained from abroad in March, 1941, and clinical trials of the Indian grown product in one of the big military hospitals has yielded very satisfactory results in healing infected wounds and war injuries.

Penicillin has been produced at the Institute both as a powder and as a solution.

As powder it is simply spread on the injury direct. As a solution it has been used in treating infections of the ear, nose and throat. The drug has been found to be very efficacious in cases of sinusitis.

The common cold, which has so far defied all medical science, has yielded marvellously to penicillin treatment at Bangalore. Numerous clinical tests have been conducted and are still being made on the subject of the treatment of the common cold with penicillin.

At the Institute a very simple process for the production of penicillin has been evolved. Sterilized wheat bran is inoculated with the spores of the fungus of "Penicillium Notatum" and left for three days, after which growth is complete and the bran has turned green. It is then ready for the extraction of penicillin.

Further exhaustive clinical and therapeutic tests are being conducted to confirm the efficacy of penicillin produced at the Institute. This work has attracted army medical experts who are visiting the Institute to study the work on penicillin, adds the correspondent.

COLOUR and CAPPING

OWING to racial discrimination at the N.C.C. graduation ceremony, a number of Indian graduates last year graduated in absentia. I supported their action then as the representative of the N.C.C. in an example. But when we do that it is my duty to follow the example set up by those students, and therefore I have decided to graduate in absentia.

By I. C. MEER

In this country racial discrimination is imposed upon us and we are often compelled to accept a position which, had we any choice, we would definitely not accept. The non-European classes at the N.C.C. is an example. But when do we have a choice we should make it abundantly clear that we shall not follow the path of "segregation with cooperation." To my mind the graduation in presentia is undoubtedly accepting racial discrimination, and the humiliation that goes with it, with our own consent. It is the duty of every graduate to protest against this discrimination by graduating in absentia.

It is said that public opinion is against the removal of this racial discrimination. I challenge this statement. If the statement is true, how is it possible for the University of the Witwatersrand, situated in a province where the reactionary Nationalists dominate, to have no discrimination against non-Europeans at its graduation ceremony? Unless we don't demonstrate against this unjust humiliation we shall get no redress.

Lend Your Leader

Owing to the heavy demand for The Leader there will be no street sales now in Durban. Readers should make arrangements with their agents for their copies or direct with the Central News Agency, Smith St., Durban. Until such time as more copies are available readers should try to share The Leader. This would ensure that there would be no reader who had not seen his Leader.

Pretoria Agreement

THE Pretoria Agreement has been de-
fended by those who are a part of it
and vigorously condemned by those
who have been left out of it. It is
the younger and more radical people
troubled leader, protesting, while the
Agreement, have been trying to defend
it. It is a sad state of affairs when
the matter is brought up. The matter
far enough without having come together.
There has been enough said both in
criticism and in support of the Agree-
ment, which no Indian will say is the
complete realization of his wishes. Every
dine in this country wants to enjoy all
the rights of a citizen. He wants to be
without restrictions of any kind; he
wants to be treated as a human being
and not as a subject. He wants to be
the master of his own fate.

But in this country the ruling class is
set against him and is bent on depriving
him of whatever meagre privileges he
may possess. The Pretoria Agreement
is a compromise. It is a compromise
that was in the best interests of the
people, while the others declare that those
who have been left out of it are not
satisfied. This is a sad state of affairs
when the matter is brought up. The
matter is brought up. The matter is
brought up. The matter is brought up.

In the first place I must explain
the Pretoria Agreement. It is a com-
promise. It is a compromise that was
in the best interests of the people.
It is a compromise that was in the
best interests of the people. It is a
compromise that was in the best inter-

Let's March... or Arrest All

The police tried to prevent a procession, for which they declared the
area did not have permission, after Sunday's mass meeting on the
to protest against the Pretoria Agreement, the crowd, numbering
hundreds, and probably one of the largest since the hectic anti-war
Communist Party, answered back: "Let's march, if they want to
arrest the whole lot of us."

Several hundred away from the Red Square and marched six deep to the
Square in orderly fashion with police on motor cycles in attendance.
There was no untoward incident.

Very important factors which contributed to racial antagonism was the
competition between Europeans and Indians and the fact that Indians
and as a form of representation, said Mr. H. A. Nalook, who had come
from Town. As long as the Indians were denied this representation
there would be race friction between European and Indian. The
in Pretoria would in no way help the solution of this problem.

Following the declaration that the idea underlying the Posing Act had been
the complete and unconditional repeal of the Posing Act;
the complete and unconditional repeal of the Posing Act;
the complete and unconditional repeal of the Posing Act;
the complete and unconditional repeal of the Posing Act;

By this fact alone the Indian leaders
stand condemned. The same thing has
happened in the past."

The Pretoria Agreement meant racial
segregation. Once this had been
achieved the European would make in-
roads into other rights of the Indian
people. Although the Indians had been
imprisoned with complete laws they had
at no time voluntarily accepted them.
They had protested.

The important factors which caused
racial friction in this country were the
economic competition between Indians
and Europeans, and the fact that the
Indians were not represented in the
Government. As long as the non-Euro-
peans remained in this position there
would always be racial friction.

The time had definitely arrived when
the Indian people in South Africa should
make a concerted stand for their rights
and demand for the full franchise, the
removal of the residential barriers, the
industrial colour bar and all forms of
segregation.

The African people had already been
peged by the Land Act, and they re-
sented the bitterness of the thing, said
Mr. Philmont Tolo. The Indian people,
if they did not protest vigorously and
take a very firm stand, would soon
find themselves in a similar position.

The answer of the Indian people to
the Pretoria Agreement was "No," em-
phatically said Mr. E. A. Nalook, secretary
of the Communist Party, Durban.
The time has come for the Indian
to stand up and fight for their
rights, declared Mr. Nalook.

The Indian people had failed the
pretoria. Their stand must be more
militant.

The idea behind the Posing Act was
to create the Indian people economi-
cally and therefore the people wanted
only an unconditional repeal of the
Posing Act. They wanted no sub-
sistences.

It had, indeed, been very fortunate
for General Smuts that the leaders of
the Indian people had blundered at a
critical stage and allowed him to get
away with a clean pair of hands to
the Imperial Conference in London. He
had been able to face the other Pre-
sidents and the representatives of India
very comfortably.

The leaders who had concluded the
Agreement were not irrevocable, and
if necessary they should be replaced by
people who would carry out the wishes
of the people.

A provincial conference, the speaker de-
clared, was not the supreme body of
the Congress. The supreme body was
an assembly of the general members,
and it was believed the Congress to
call a general meeting.

INDIANS ASK FOR TRAINING IN PHARMACY

ATTENTION is drawn by six young
Indian men, in the course of a letter
to the Congress, to the difficulties con-
fronting Indian students interested in
pharmacy.

They state that the only profession
open to Indians in this country are law,
medicine and teaching.

"Pharmacy is a new field as far as
South African Indians are concerned.
There is not a single Indian chemist
in South Africa, while there is a com-
paratively great number of Indian
doctors."

Indian students feel that pharmacy,
which is allied to medicine, should be
open to Indians.

According to the rules and regulations
of the S.A. Pharmacy Board, a student
must satisfy the three following con-
ditions before he is allowed to write the
Qualifying Examination for Chemists and
Druggists: (a) He must hold the Matricu-
lation Certificate of the Joint Matricula-
tion Board; (b) he must serve an appren-
ticeship of three years with a chemist;
(c) must undergo a training of 1,120 hours
in a technical college recognised by the
Board.

The local chemists, the students allege,
seem to have a gentlemen's agreement
not to apprentice Indians. Some of them
have Indian assistants, but unfortunately
the question of apprenticeship arises and
they find countless excuses for not ap-
prenticing Indians.

"We have in vain tried to be ap-
prenticed. It is impossible for us to comply
with condition (b).
The students urge that Congress make
representations to the S.A. Pharmacy
Board, since European chemists refuse to
apprentice Indian students, and to re-
cognise the work of Indian students in the
dispensaries of Indian doctors on the same
basis as that of apprenticeship with
chemists.

KIDNEYS
AND BACKACHE

BACKACHE is seldom due to real Kidney Disease—if it were there would be few of us left alive.

Most Backache is due to poisoned nerves and a new treatment has been found which removes these body poisons or toxins.

This new treatment is Dr. Heinz Liver Salts—an old-fashioned name covering the very important discovery of removing bile from the Gall-bladder by the physical process known as Chemo.

By draining away accumulated stagnant bile and ridding the whole system of digestive debris, a remarkable return to health and freedom from old pains is rapidly established.

My back hurt . . .

An instance of what Dr. Heinz Liver Salts will do is shown by the case of a wealthy farmer who had numerous consultations, fearing Kidney trouble because of a persistent pain in his back. No permanent relief was obtained until he took a course of these Osmotic salts when he declared that he was entirely free from the pain.

DR. HEINZ LIVER SALTS must be taken with hot water. They are not a cool drink but a means of drawing away bile and stomach waste. The price is / from all chemists.

SLEEPS LIKE A LOG

The case of Mr. M. J. Clarke, of 12 Kensington Street, Wellington, was serious. For three years he suffered stomach agony—his weight dropped from 10 stone 8 lb. to 8 stone and sleep was impossible. He tried stomach powders, N-rays, stomach pump and doctor's prescription, and took olive oil by the gallon with no beneficial results. Then he tried R.U.R., and this is what he says: "After taking two and a half bottles—Oh! What a pleasure life was! I could sleep all night and eat everything!" Mr. Clarke still works at his trade of painting, with the ease of a man.

You cannot overlook such genuine testimonials as this. The R.U.R. Company have on file letters that prove the beneficial tonic properties of R.U.R. in the following complaints: Neuritis, Lumbago, Rheumatism, Sciatica, Gout, Indigestion, Constipation, Listlessness, Liver, Kidney and Bladder Troubles, Headaches, Stomach Complaints and several others.

R.U.R. contains the five-fold health action of a laxative, liver re-

Soccer Results

The inter-racial matches played at Currie's Fountain in aid of Sullaphen Benefit Fund proved successful in all respects—the fund will benefit to the extent of £300 nett. In the first match (coloured) played Indians, this resulted in a win for the latter by 3-1.

In the second match Africans were beaten by Indians, 2-1. Both these matches were interesting and good display was given by all the players. The representatives of the three Associations were keen that they should make this inter-racial soccer an annual affair. These remarks were made at the termination of the matches at a tea party given in honour of the visitors. Stars and Cud. DRUMMOND'S DRIVE

AMOEBI DYSENTERY
PRODUCED BY INDIANSUnfounded Allegation
says Dr. N. P. Desai

Evidence before the Durban Health Inquiry Commission, during which Dr. J. Drummond, said that amoebic dysentery had been introduced into the country by the Indians who had themselves built up a resistance.

Dr. N. P. Desai, who was present, said that the Indians were immune to it was, however, denied by the Government Pathologist, Dr. Basil Sampson, on the next day.

Dr. Drummond had abandoned the scientific approach of the more popular one of the politician who, in Durban, anyway, was all ill to the Indian. So much so that it was left to Mr. D. E. E.C., to remark in the Provincial Council not two weeks ago:

"I say the word 'Indians' and that is the answer to every question with which Durban is faced."

Dormant for 80 Years

It was impossible that the germ, after having been brought to the country 80 years ago, had remained dormant for 80 years.

The real cause of the infection would be found if the Durban Corporation examined its wholly inadequate sanitary system in Clairwood, Riverside and the other Indian areas. Improved sanitation would arrest the infection.

In regard to this inquiry the Indian representative, Dr. Desai, pointed out, had been recently accused of being a source of infection. This was subsequently disproved.

TAXI - OWNERS

A deputation from the Natal Non-European Taxi Owners Association, consisting of Messrs. R. R. Nair, A. Khan, P. Perumal and Mr. A. Christopher, will leave for Pretoria on Sunday to interview various departments connected with transport matters, such as petrol, rubber and items relating to the Transportation Act.

It came to this country about 1860 and it would seem that the amoebic germ had been in the country for such a long time that it had only become dormant about two years ago.

CONQUER cold germs

Young children colds can easily develop into bronchitis or deadly pneumonia.

PUMA BALM treatment conquers cold germs. Rub it on the chest, back and feet. Keep the child warm. Apply the PUMA BALM treatment several times and the cold will soon go.

MINISTER TO MEET
COMMUNISTS

The Minister of the Interior, Senator Clarkson, has agreed to meet the Durban Communist Party during the middle of June, when he will be in Durban.

This intimation is the result of representations made by the Party to discuss the proposed Licensing Board with the Minister, following on its Red Square meeting recently.

The High Commissioner, Sir Shafat Ahmad Khan, who was present, presented the book tokens, on behalf of the Union, to the graduates.
