S. AFRICA WILLING

Exps. to The Leader

PARIS.—South Africa, said the Special Political Committee of the United Nations that she was still willing to attend a round-table conference with India and Pakistan with the aim of settling the problem of the treatment of Indians origin in the Union.

South Africa contended that there is no question before the Committee for the supervision of the United Nations touching the question was "one of domestic concern."

Pakistan's attitude towards the preliminary moves for settling the problem of Indians in the Union remains unchanged, Sayn's correspondent was authoritatively informed.

The Karachi Government desires to see that the talks with the Union and Indian Governments on the basis of the agreement laid down by the Cape Town Conference in February, 1950.

India wants the negotiations conducted under the aegis of the United Nations, but the Union Government does not favour the course on the ground that the problem is a domestic one.

No Indians in S.A. Otherwise

PARIS.—The vast bulk of the 300,000 Indians in South Africa lived in a single province which they had helped to develop, said Mr. R. K. Nehru, India's representative, when replying to the Deputy Leader of the Union delegation, Mr. C. P. Jooste, at the Political Committee of the United Nations, which broke up before the Christmas recess.

These Indians, he said, were descendants of emigrants who were encouraged to come from India and were given guarantees by the British Government of the day that they would enjoy the same rights and privileges as any other class of British subjects.

"If these guarantees had not been given, the government of India, even of that day, might have refused or hesitated to let this emigration take place," said Mr. Nehru.

MR. R. K. NEHRU (India) told the Committee that "we cannot give up the hope that, like other loyal members of this organisation," South Africa would apply in actual practice the principles of the Charter.

"We must continue to exert moral pressure on the strongest possible pressure on the South African Government through the United Nations. We are, therefore, suggesting in our draft resolution that the alternative recommendation made in the Assembly's resolutions of last year, namely the appointment of a Three-Member Commission for the purpose of assisting the parties in carrying through appropriate negotiations, may now be given effect to," he said.

Mr. Nehru said that in view of past experience and in view of South Africa's refusal to carry out any recommendations based on the Assembly resolutions, India's new resolution should be couched in stronger terms.

"We have, however, confined strictly the terms of last year's resolution. We cannot give up the hope that South Africa will modify her policies for the interests of peace and friendly relations."

He said the question of the treatment of Indians in South Africa, discussed each year since the 1946 session, had this year come up under the terms of a resolution which was adopted by the Assembly during the last session.

Mr. Nehru said the vast bulk of the 300,000 Indians in South Africa lived in a single province which they had helped to develop. They were descendants of emigrants who were encouraged to come from India and were given guarantees by the British Government of the day that they would enjoy the same rights and privileges as any other class of British subjects.

"If these guarantees had not been given, the Government of India, even of that day, might have refused or hesitated to let this emigration take place," he said.

NO OTHER HOME

These Indians had no other home and were South Africans themselves. "If any man belongs to the country, whose colour is not white, can he called a citizen?

"Not only have the promises of the past not been fulfilled, but whatever rights the Indians enjoyed were whittled away. Steadily

PAKISTAN DELEGATE CALLS AREAS ACT "INHUMAN"

Professor Ahmed Shah Bokhari (Pakistan) said the subject the United Nations Committee was discussing was a painful one. Its discussion had been spread over several years in the United Nations, and many years before the organisation was created.

The situation had been worsened by the repeated contention of South Africa that the question was outside the United Nations Charter's scope.

The Group Areas Act was "inhumane" and "derogatory to human dignity," he said.

PROFESSOR BOKHARI said the only sin of the people in South Africa who did not have white skins was that they had a different complexion.

The Asiatics in South Africa were being made to live in "Asiatic ghettos."

"No world have preferred the Union Government to have defended its legislation instead of repeatedly questioning the United Nations' competence to discuss the issue.

He asked if it was not true that the non-Whites in South Africa were being treated as serial pariahs, being herded together in certain towns and being subjected to humiliating conditions regarding education and human dignity.

He said the Union Government was not only suppressing the non-whites but also restricting what little freedom they had left.

If it was [illegible] that such trampling of human rights was not against the Charter, if such discrimination was upheld, then "We Asiatics would be ashamed to sit here," said Professor Bokhari.

"Not only would we feel ashamed to sit here, but we would marry all the representatives of white nations."

NOT WORTHY

The speaker said whether the United Nations should go ahead or not take notice of such [illegible].

Therefore the legalistic arguments of the Union Government were only used ingenuously, for purposes that was not worthy of the United Nations.

Professor Bokhari said that before the roundtable conference could be held, the Group Areas Act was passed with "irrevocable speed."

The only step that remained to be taken was to set apart these areas for the hooligan together of non-whites like cattle.

Professor Bokhari said he wanted to plead with the Union Government to listen to the voice of the conscience of the world and even now to hold its hand and not take the final step.

"We do not wish to embarrass the Government of the Union of South Africa. We do not want to wreak any vengeance on them. We do not ask it to come before us in sackcloth and ashes and be penitent for its sins.

"We look at the question realistically. We only want to discuss the matter—this great humanitarian cause."

AN INDICATION

The Union Government could at least give some small understanding that the Group Areas Act would not be finally implemented until the problem had been discussed at a roundtable conference.

The question was not domestic, but of wider import, and its problems were spreading, not diminishing. It was throwing into sharp focus the difficulties between races and nations.

Several white nations had learnt the lesson of the times and many European nations had realised the effect of racial theories. Many white nations during the last war were themselves victims of aggression and indignities because of their race.

Professor Bokhari asked the Union Government to meet the representatives of India and Pakistan in whatever conditions it wanted, provided it discussed the problem in the spirit of the United Nations Charter.

UNION'S TREATMENT OF INDIANS

Whole Free World Concerned

PARIS.—A Five-Nation resolution on the treatment of people of Indian origin in South Africa, introduced in the special political committee of the United Nations, recommended the appointment of a commission of three members of the United Nations to help the Governments of India, Pakistan and South Africa negotiate for the settlement of the problem.

The resolution is sponsored by Burma, India, Indonesia, Persia and Iraq.

It advocated that, of the three-member commission, one should be nominated by the Union, one by the Governments of India and Pakistan and that the third should be chosen by the first two or, if they could not agree, by the Secretary-General of the United Nations.

It called on the governments of South Africa, India and Pakistan to make their negotiations within 90 days.

It urged the South African Government to suspend the implementation of the Group Areas Act until the conclusion of negotiations.

The resolutions preamble said the promulgation of five proclamations under the Group Areas Act on March 30, 1951, was a direct contravention of a previous resolution of the General Assembly.

It said the policy of apartheid was based on doctrines of racial discrimination.

THE Iraqi delegate, Mr. Tawfiq Alkyali, is one of the five sponsors of the draft resolution recommending the appointment of a three-man commission to assist the Governments of South Africa, India and Pakistan, to settle the problem.

He said the Union responded with a "strong and unhealthy reaction every time consideration was given to the question" by the Assembly examined the question of the treatment of Indians in South Africa, the Union Government passed more laws against them. These laws were aimed at their extinction and elimination.

He said the competence of the United Nations to deal with the question had been established beyond doubt. The question, he said, was as important as it was difficult and complex, and in spite of the so-called "extraordinary measures" the Union Government" they should strive towards a settlement.

Mr. Alkyali said that since the introduction of the Indian complaint in the United Nations, a series of discriminatory acts had been passed by the Union Government. The aim of the sponsors of the resolution was not only to secure its passage—"they are pretty sure of that"—but that the South African delegate would carry back to his Government the feeling of the overwhelming majority of members, particularly of Asia and Africa.

The sponsors of the resolution would not tolerate the "fantastic theories of racial discrimination," he said. They wanted both sides to settle the problem amicably and in the spirit of cooperation and hoped the Union Government would give "concrete proof of its readiness to abide by the letter and spirit of the United Nations Charter."

Mr. Hamed Sultan (Egypt) said his delegation viewed the dispute as "painful."

He said: "We call on South Africa to reduce psychological and

INDIAN WARSHIPS AS ROYAL ESCORT

BOMBAY.—Two Indian destroyers will be among the escort vessels to Princess Elizabeth and the Duke of Edinburgh during their journey from East Africa to Australia next February.

They are H.M.S. "Rajput," senior ship of the 11th destroyer flotilla, and H.M.S. "Beagle." They will form part of the naval escort between Mombasa and Colombo.

The two ships will earlier rendezvous with the British cruiser H.M.S. "Kenya" and two sloops of the Pakistan Navy in the Indian Ocean, holding joint training exercises.

To the aid of Grahamstown.

In 1870, under Colonel Wilshire, Commandos from the Eastern and Western Provinces carried out raids to restore order on the Fish River. These were successful but only after heavy fighting—especially by the gallant defenders of Grahamstown who only had two six-pounder guns to help them.

TALK of the BAZAAR

HAVING given myself to reckless and gay abandon over the festive season, the prospect of getting at a typewriter hammering away at the keyboard in a state of semi-consciousness is not at all appealing to the Fifth Estate, but start the New Year in this manner I must, if only to remember if I should not have taken up poetic forming — after all, that might have been a blessing in disguise! Being a sedentary all year life with the immediate reward of preserving some "oops" for every week helped me make it out to be a private profession.

Now, what's going here now? I love the job, don't I? The Christmas and New Year holidays were succeeded in putting me out of gear for the New Year's hangover, no doubt . . .

FEMALES AND FLEAS

AFTER intensive investigations, scientists have penned this startling fact about fleas: that for every male flea, there are 28 females. It has also been proved that the female sting is sharper than that of the male; in this respect they don't seem to be different from human beings!

As far as we are concerned, they may be useless information, but imagine the surprise when the answer rates existed among human beings! When I mentioned this to my janitor in the office, I saw him scratch in the hair his eyes rested on, and he put me on get as if he was in paradise. Maybe he wanted to be compliments or done after all!

GAMBLED WIFE!

STRANGE things seem to happen now in India. According to news received here from Quetta, a Bahaki Muslim in Mastung staked his wife in gambling, and he back would have it, lost her. His opponent had put up his money as an opposite stake.

The trouble afterwards is reported to have revealed the town with its council and the wife he had won. This enraged the loser, who has since died a result for the recovery of his wife.

Mastung's own gamblers — no telling where it all leads to — especially when one however so desperate and is in such a frame of mind . . .

CHOES, CHIFS AND LOOKS

INDIAN girls have had a reputation to concentrate on (here looks in recent years, and the question came up for comment by Miss Margaret Mead, lecturer at the Durban Indian Girls High School, in the School magazine.

Says Mrs. Davey in the issue: "A number of girls do not have the job, don't I? The Christmas and New Year holidays were succeeded in putting me out of gear for the New Year's hangover, no doubt . . .

EMBARRASSING . . .

I TOOK myself to the Durban Indian Girls' High School Social recently, and was fortunate to have various interviews. Had I been spotted, I should certainly have been a strong competitor in the "wallflowers" class for the evening.

However, there were many persons in the room who had no good claims to the honoured (?) position, and the two were clever to appear on the stage with more than a few . . .

Certainly felt embarrassed. One in particular felt like a fish out of water (a well-timed chat!). When he saw that he was an unwelcome guest, he left the hall, and seemed in a great hurry to get his hat from the far end of the hall. Thank goodness I wasn't seen sitting against the wall!

"Other sweet and embarrassing items were brought in: the lady with the long hair, the lady with the biggest smile, the gent with the moustache too and so on. Needless to state, there was plenty of cracks about some of the costumes. But a pleasant evening was spent by all and the prizes the girls had at the end were well deserved.

TOMORROW'S RACING

COMMODIOUS SHOP OPENED

REPRESENTATIVE Europeans, Indians and Africans were present at the opening of the newly erected premises of Mr. L. S. Khan, of Kokstad, Matatiele, on December 29.

Mr. Ismail Easterjee, who opened the shop, said that the establishment of the Khan family name in the interior of the district, in spite of the fact that they have now extended their activities to Durban.

Mr. S. K. Naidoo, another of the speakers, referred to this town as the sentinel basis of the Rhodesia Railways, and he wished the best of luck to the family in their new venture.

Mr. Hassan Hoosen, a resident of the area, also extended the good wishes for the prosperity of the business.

Representatives of the Local Health Committee, the Town Council and the Law, as represented by Mr. Naidoo, were also present, and the proceedings, which included the presentation of bouquets to the proprietors, concluded with refreshments.

The gathering, which also included the presence of leading women of the district, was organised by the Indian representatives, which were extremely successful.

usually thinks that the latter has something against him, but when he was wrong; he realises that life is not a bed of roses, and that one has to suffer punishment. He gets happier one day. I am not trying to be philosophical, but I am stating the facts from experience and also reflecting the general view of the students to whom I spoke recently.

CHOOSING A CAREER

AFTER a student has completed his Matric, he has to think for himself, and learn to paddle his own canoe. In this respect, he either succeeds or fails in life. That is why the Matric is a parent to future enterprise. In the case of the Indian student he is considerably at loss as to what line to follow; his suggestions are few indeed, if he can afford it, he takes up either law or medicine; if he cannot afford the expenses, he takes to the teaching profession. He cannot follow the career he loves. For instance he may have an aptitude towards engineering, but the doors are closed to him.

Then when our parents sort of secondary inhibitions, two things hit one squarely in the face: the prospect of forgetting most of one's friends, and the throwing of a career.

and deliberately a social and political system was being built up which was quite unique in the chance all communities in South Africa which were not white, to the status of inferior communities.

Mr. Nehru said that because of many restrictions, the Indian community had been obliged to confine itself to trade, for it prevent them from functioning freely in [illegible] many restrictions, like the Asiatic Land Tenure Amendment Act, were now being imposed.

The reservations of areas under the group areas had been carried out in such a way that its immediate effect was to undermine the economic strength of the Indian community. It was mainly Indians who would have to shift to new areas.

"INFERIOR AMENITIES"

He alleged that the areas reserved for Indians had "inferior amenities" so that in every way, both socially and financially their status was being deliberately lowered. The whole object was to make their living and working conditions impossible.

These measures, he said, were a violation of the principles of equality, freedom and non-discrimination embodied in the United Nations Charter.

"A whole community is under attack because its colour differs from that of the ruling race," Mr. Nehru said.

The Assembly had repeatedly declared that [illegible] that the persecution of the South African Government against which, complaints had been made, were of purely domestic significance.

The Indian Government had always been prepared to discuss the matter with the Union on the basis of the Assembly's resolutions.

Mr. Nehru accused the Union Government of flouting the Assembly's recommendation that the enforcement of the Group Areas Act be delayed, pending the conclusion of negotiations.

WAKE UP YOUR LIVER BILE

And Keep Your Digestion Right

Did you know that 2 pints of liver bile flow into your digestive tract every day to help digest the food you eat? If this bile is not flowing freely, the food may just decay in the digestive tract. Then gas blocks up your stomach. You get constipated. Your whole system is poisoned.

It takes those 2 pints of bile to make you feel "up and doing." Wonderfully effective Carter's Little Liver Pills to get those 2 pints of bile flowing freely to make you feel yourself again. Get a package today. Ask for Carter's Little Liver Pills as directed.

In Memoriam

HAJEE.—In revered memory of the late Haji Ismail Hajee Abdulla Ismail Hajee, who left this plane to rest in Heaven on 4th January, 1948.

The Captain played a masterly losing
And fought all round the political ticket.
His stables of wisdom had full of oats
As the part he played was above all criticism.
He gave a helping hand to the needy
And never did to the friendless.
His kind words are hard to speak,
Absent, his deeds are endless.

He reached the lands of peace and rest
And showed that words are less than deeds,
As he played his worth and retired
A cartload of remembrance to us.

Though gone but still remembered
By K. H. Ismail.

MAHOMED.—In loving memory of my beloved husband and our dear father, Mahomed Ismail, who passed away tragically on January 5, 1951.

Sweetest memories of one so dear,
A loved one's memory we treasure,
Love's fairest wreath, our tribute to his name,
Is kept entwined around the hearts of his beloved wife, children and family, 67 Mansfield Road, Durban. Inserted by: Personal Natdeen.

JOHN.—In loving memory of our dear father, Ramjheth (d), S. John, who passed away on January 5, 1950.
A light has gone from our home,
A voice we loved is still,
A heart we cherished lies at rest,
Which never can be filled.
God gave us courage to bear it
And strength to fight the hour,
What it means he best knew
No one will ever know.
He has reached his journey
Our days follow soon.
To welcome all who live
Within the golden gates.
We will meet you in your heavenly home.

MAHOMED.—In loving memory of our dear brother, Ismail Ebrahim Patel, who passed away on January 5, 1950.
Memories are golden,
Memories are dear,
I could not wish you dearer,
Were you only near.
Sadly missed by brother Ahmed, sister-in-law Amina and family.

MAHOMED.—In loving memory of our dear brother, Ismail Ebrahim Patel, who passed away on January 5, 1950.

MAHOMED.—In loving memory of our dear brother, Ismail Ebrahim Patel, who passed away on January 5, 1950.
The three and years since you left us
Deep in our hearts is a place
Where memory will never grow old
Whose sacred shrine we trace.
Sadly missed one the world could
Unique remembered by your loving sister Amyla, brother-in-law Ismail, children, 32 Sanctuary Road, Durban.

MAHOMED.—In loving memory of our dear brother and brother-in-law, Mr. E. Mahomed, who passed away on January 4, 1950.
The time and years since you left us
Present week would be today
Memories of the days that are
Never leave.
Always remember her for his brother
Dadoo Valiman, Wardsview.

GOVENDER.—In loving memory of my beloved husband and our dear father, Ramlingum Govender, who passed away on December 27, 1949.
In this world of trouble and sorrow
In our hearts you are missed
But would not wish you return
To suffer as you did.
Sadly missed by wife, children and family, 11 Albert Street, Wentworth.

SEX INEQUALITY —AN INJUSTICE

From Our Own Correspondent

BOMBAY.—"Inequality between sexes is the greatest of all injustices that exist in the world today," declared Mrs. Pandit, Member of the Indian Delegation to the U.N. Human Rights Committee.

Speaking at a meeting of Parsi women here this morning, Mrs. Pandit said that the main cause of the fact that women hardships will be felt in the future Indians.

As a result, the Municipality has already purchased an additional 19 acres of land for the "Outcast" by Indian housing. Building plots will be sold at economic and non-economic rates. Non-economic rates will be sold at an approximately £150,000 for Indians of the lower income groups. In the implementation of this scheme, Mr. Nehru said money was no constraint, he added, he said.

SENSE OF RESPONSIBILITY

Dr. Ismail A. Kajee said that the nation has not been done with the two hundredth the problems of the Indian people, but for the three Indian wards at the local Municipality was an example of the Indians' sense of responsibility. He expressed three important requisites for solving the housing problem, sanitation and hospitalisation. He also gave his policy in any clear programme, he added.

Dr. N. Shapiro, Medical Officer of Health for Estcourt, said that it was a red letter day in the medical history of the town. He emphasised the need for adequate X-ray and other apparatus. She had a long felt want for Estcourt and districts, growing population. The Indian community's contribution, he believed, was a great deal to make this an established fact.

Mr. C. Kumaravelu referred to the fact that the majority of Indians in Estcourt were of the working class, and in any progressive programme for the Indians, they hardest fell on only just a few. He was happy that the Council took so much interest in the welfare of Indians.

Mr. James Augustine said that the questions of Indians living on the Estcourt was one of the most vital municipal issues, and he welcomed the decision of the Municipality and the Indian community to co-operate to half a century. The area had been long overdue for the boys and girls. Now that the Indians could be expected to spend their money on the Indian traders, without any necessity of leaving, he said.

The Mayor, Councillor Connolly's reasons in providing land for Indians was a very generous tribute to the Mayor and Councillors for a better settlement of a vexed problem. In the past, there was inadequate housing for the lower classes, he said, but now, the Council has taken a bold step forward.

Other speakers were Mr. G. Cave (health inspector), Mr. E. Ramsay, Mr. Ramsay, Mr. Ramsay (town and Mr. G. Pandaray.

CANCER HAS SEX

From Our Own Correspondent

BOMBAY.—Cancer has sex, according to Dr. D. J. Jamsawala.

Dr. Jamsawala told Statesman that there was a legend in India about growths of two types of cancer—male and female. He said that experts were not satisfied with the theory that cancer was confined to diseases and some Egyptian mummies have been believed to have had it, "cautious."

During the year the trade in animals had died down, but after the war a "Boom" began, as European countries, especially Germany, started to replenish their zoos.

INDIANS HELPFUL SAYS ESTCOURT'S MAYOR

From Our Own Correspondent

ESTCOURT.—Frequent meetings with the Indian community helped to no small measure to alleviate the problems that confronted the Municipality from time to time, said Estcourt's Mayor, Mr. C. D. E. Forder, at a gathering to inspect Estcourt's newly acquired ambulance.

Mr. Forder said that most of the problems should be taken away from the political plane. Amicable and lasting settlements could be reached by consultations, discussions and by a spirit of give-and-take on both sides, difficulties, he added.

Mr. Singaram, a member of the Indian community of Estcourt and district for their assistance in the purchase of the ambulance. He said that the Indian community of the Estcourt operative effort that every person, no matter what the colour of his skin may be, to provide adequate health facilities for all. The contributions will be forthcoming by all Indians in the district, he said.

The Mayor said that the relationship between Europeans and Indians in Estcourt was very satisfactory. It was in this spirit of confidence that the problems of the town could be achieved.

Referring to the position of Indians in the Municipality with the permission of the town Council, he said that the Indians have been served, the Europeans publicly that the Town Council was not unmindful of the fact that certain hardships will be felt in the future Indians.

LIKELY CANDIDATES FOR MARITZBURG TEAMS

From Our Maritzburg Office

MARITZBURG.—With both "A" and "B" teams to be selected shortly, "The Leader" Sports Reporter gives impressions on the probable intervarsity selection, basing its assessing-up on the present form of leading players in the Capital.

BEGINNING with the "A" team, to be followed by the perky Durood Vawda, Vawda is in fine form this season and should be a certain for selection of the side. With some batting in the middle order, Vawda and K. E. Naidoo should be an automatic choice for the bowling department of his all-round ability. He is also the best fast bowler available for this position. It would be superfluous to bring in another bowler when Dr. Ali could do with the services of a third wicket-keeper-batsman. Hall needs no introduction. Once set in, he is one of the finest all-round cricketers.

After four years of absence, Mr. Jorg, R. C. Tiffay is really in the pink. Tiffay has been batting in good style and should do well at fourth wicket. A good tactician, he should captain the side. W. Stephens, as the team's first bowler and No. 3 in the batting order should be followed by Dunsford, who has been in good form and a fine fielder. Credit to him.

It is difficult to understand why "Baby" Cumberlege seems to be left out. He is obviously made for the No. 7 position. By nature a free scoring batsman, he would be a great success batting in that order.

Although Jay Naidoo has not shown the form he is capable of, he should be retained for the sake of his all-round value. He is also a safe and important middle-order batsman. Mr. Gandhi, the veteran, who has regained his batting form, seems in next. He is also a brilliant cricketer. For stock bowler we need look no further than G. H. Pengo, who has been in excellent form consistently throughout the season. Pengo would be a key player in the side and a key man in the batting order. Pa Kajee, that left-hander, completes the side. Daddy seems to be 12th man.

With five fast bowlers, one medium pace and spinner, one wicket-keeper and batsman, and the rest batsmen, the side should be assured of a good batting and attack. The batting could be strengthened by Mr. Gandhi or Cumberlege if not all rounders, and of course we would have no qualms about the inclusion of Mr. Naidoo in the team.

THE "B" TEAM

The "B" team has several fine prospects. With some fine undefeated bowling, batting and fielding displayed by Mr. Ramsamy, M. Ramsamy, M. Baloojee of M.I.C.C., the latter is a find. He has a fine action and is a fast bowler. Another fine bowler is Mr. Ramsamy, who has also been batting well and is a fine all-round cricketer. Soldier, shown for Orientals, seems in need

NATAL AMATEUR BOXING OFFICIALS

THE seventh annual meeting of the Natal non-European Amateur Boxing Association was held in the Durban Location on Saturday, December 29, when the following were elected to office for the ensuing year: Patrons, Messrs. Adam Payers, D. Kaldeen and Barry Naidoo; president, Mr. M. E. Khaty; vice-presidents, Messrs. Harry Kirsten, C. A. Chetty, Yassin Naidoo, F. Martin and A. L. Pillay; hon. secretary, Mr. V. Koobaly; hon. asst. secretary/record clerk, Mr. V. Reddy; hon. treasurer, Mr. M. E. Timmy; hon. auditor, Mr. Nat. Moodley; hon. medical officer, Dr. R. T. Chetty, Dr. M. G. Naidoo, Dr. A. L. Pillay, Dr. D. Naidoo; hon. organiser, Mr. Kandith Singh.

THE S.A. BOARD

The secretary's report and treasurer's financial statement were received and accepted.

The South African Non-European Amateur Boxing Association, which is being formed and in a state of infancy, was discussed in depth and the ins and outs of how best to go about it. It would do no good to have the right men, key spinners in the side if we have not provided with the best.

B. K. Naidoo would be a safe bet as wicket-keeper-batsman. His 97 last week-end took five wickets and would be brought in as stock bowler. Accurate and consistent bowling of seamers are invaluable in keeping down runs and shutting out batsmen.

He should be preferred to others who have not shown the form he is capable of. Mr. Naidoo is a thinking cricketer. With good batting form, seems in next. He is also a brilliant cricketer. For stock bowler we need look no further than G. H. Pengo, who has been in excellent form consistently throughout the season. Pengo would be a key player in the side and a key man in the batting order. Pa Kajee, that left-hander, completes the side. Daddy seems to be 12th man.

With five fast bowlers, one medium pace and spinner, one wicket-keeper and batsman, and the rest batsmen, the side should be assured of a good batting and attack. The batting could be strengthened by Mr. Gandhi or Cumberlege if not all rounders, and of course we would have no qualms about the inclusion of Mr. Naidoo in the team.

He has a fine action and is a fast bowler. Another fine bowler is Mr. Ramsamy, who has also been batting well and is a fine all-round cricketer. Soldier, shown for Orientals, seems in need of a high standard.

RESULTS

The following are the results of matches played over the holidays:—

M.I.C.C. v. V. Ormonds Young Men: Ormonds 70 and 80 for 7 wkts. (Ramsamy 3 for 7, Baloojee 3 for 7, Ramsamy 3 for 28); M.I.C.C. 150 for 7 wkts. (Ramsamy 72, Baloojee 38, Ramsamy 3 for 28).

U.N. DECIDES TO SET UP COMMISSION

PARIS.—The United Nations Special Political Committee decided to set up a three-man Commission to help India, Pakistan and South Africa settle their differences over the treatment of people of Indian origin in the Union.

The committee passed by 41 votes to two, with 13 abstentions, a resolution submitted by Burma, India, Indonesia, Persia and Iraq, recommending the commission.

The body would be made up of one member nominated by South Africa, another by India and Pakistan, and the third by the first two nominees.

The three governments were asked to make their nominations within 60 days of the adoption of the resolution.

If the commission failed to be established, the resolution called on the Secretary-General of the United Nations, Mr. Trygve Lie, to appoint an individual to aid in the negotiations.

Meanwhile, South Africa is asked to suspend the implementation of the Group Areas Act, pending the conclusion of the proposed negotiations.

Voting was by show of hands and not the customary roll-call. South Africa and Australia opposed the resolution. Countries which abstained included Britain, New Zealand, Canada, Greece, France, El Salvador, the Netherlands and Denmark.

Opening the debate the Afghan delegate, Mr. A. H. Taleh, supported the joint resolution.

He said racial discrimination must be considered with the principles of the United Nations Charter.

Mr. Pelletier supported the five-nations draft resolution.

Sweden supported that the International Court of Justice be asked to decide whether the United Nations General Assembly was competent to deal with the issue.

The Swedish delegate, Mr. Sven Grafstrom, addressing the United Nations Special (ad hoc) Political Committee, also suggested that the appointment of a single United Nations representative or rapporteur might be the most effective way of bringing the disputing parties together.

Mr. Grafstrom said that his delegation felt confident that a report from such a representative would help to bring the problem out of its present impasse and give the General Assembly a fresh start on the dispute.

RACIAL DISCRIMINATION

The Burmese delegate said the question of racial discrimination in South Africa was of concern to the whole world because it had steadily deteriorated.

Questions of racial discrimination and denial of human rights came within the competence of the United Nations, he said.

"While most other countries are removing racial discriminatory measures, South Africa is working in the opposite direction.

The delegate for Liberia, Mr. K. Yanda, said that "inhuman discriminatory racial laws" in South Africa were contrary to the United Nations Charter and the universal declaration of human rights.

If the United Nations was to maintain its prestige in the eyes of the coloured races of the world it must take decisive action in this matter.

"But peace and security is endangered by such racial discrimination laws which only widen the gap between white and non-white," he said.

Mr. Yanda wondered how South Africa could be a member of the British Commonwealth of Nations and act in the manner it was doing.

He asked whether Britain, as a partner in the Commonwealth, could not persuade South Africa to change its policy.

Otherwise, how long could the Commonwealth exist? he asked.

Liberia would support the resolution, Mr. Yanda said.

"HITLERITE GHETTOS"

Dr. Vladimir Prochazka, of Czechoslovakia, said the Malan Government was creating a system of Hitlerite ghettos by which it could effectively exploit its own non-White populations.

M. Paul Devinat, of France, said that the peculiar nature of the problem dictated the need for caution in approaching solution.

The French delegate said that problems of minorities were going to be raised in a hurricane of war, and he would avert all reason.

He warned the committee against "explosive" measures.

France thought that the best solution would be to leave the parties concerned to negotiate between themselves and for the committee to help overcome obstacles in the path of such negotiations, Mr. Devinat said.

Mr. L. T. Palamarchuk, of the Ukraine, said that the Union Government's policy of segregation raised the question of racial supremacy, which spelt a threat to the peace of the world and must be emphatically condemned.

The Ethiopian delegate, Zellow Bashou, said no political or economic reasons could warrant South Africa's Group Areas Act.

Ethiopia would support the resolution, he said.

BAN ON OVERSEA WIVES DENIED

THE Immigration Department, Johannesburg, have denied the rumours which first appeared in a Durban daily newspaper that the Government intended to ban the entry of wives, born overseas and married to South African Indians from coming to the Union. It was stated that a law was to be introduced to this effect at the next session of Parliament.

"We have heard these rumours," stated this official, "but can give no assurance that no such change is contemplated."

The assurance left the Indian community, Indian leaders had assumed, that no such enactment was planned. But it would take place.

The principle contained in the contemplated restrictions on Indian marriages, it was stated at the time, to be a violation of a basic human right of the individual and ran counter to the provision on marriages contained in the International Declaration of Human Rights which guaranteed the individual the right of free choice of one's life partner.

LETTER TO S.A.I.O.

The Joint Honorary Secretaries, South African Indian Organisation, have received the following from the office of the Department of the Interior:

"With further reference to your letter of the 14th November, 1951, addressed to the Honourable the Prime Minister, I have to inform you that this Department has no knowledge of a proposal to prohibit the wives and children under 18 years of Indians from the Union."

Stellenbosch Professor Explains

BACKGROUND TO AREAS ACT

THE South African Bureau of Racial Affairs, a Nationalist-sponsored body, which held its conference on racial affairs in a Maritzburg hall, which was out of bounds to all non-Europeans, heard Professor Dr. P. J. Coertze, of Stellenbosch, say that the handicap of the Indians in the past was the background of the Group Areas Act.

Professor Coertze, who spoke on "Indians in South Africa," said that the Indians were not a problem in the Union, but a result of a problem.

"The problem is the poor white problem," he said.

Professor Coertze said that the Indians were not a problem because they were a minority group.

"The Indians are not a problem because they have their own motherland, India, to look to for help," he said.

He said racial discrimination against Indians was in conflict with the principles of the United Nations Charter.

"There is no ground for ignoring the presence of equal political rights for Indians when they first settled in South Africa," he said.

Dr. Octavio Maloles (Philippines) referred to the "Japanese peril" and said that it was beyond the power to "You can lead a horse to the water but you cannot make it drink."

The new attempt to solve the problem would fail like the previous ones, he said.

Mr. Maloles said that while his Government was generally opposed to all types of discriminatory legislation, there might be a reason for it in South Africa. The United Nations must try to find out what lay behind this discrimination and remove the cause.

He felt sure that with goodwill and a rational approach, a satisfactory agreement could be reached between the two countries.

South African Indian and Pakistan Mr. A. A. Seedatee (Seedat Union), who said he had been in South Africa, said persons of Indian origin were denied the most elementary rights in the Union. The Group Areas Act had been passed so as to force a resettlement of Indians in less congenial areas. Under such an arrangement the Indians would be doomed to intolerably hard conditions of existence.

NO SCHOOLS

Mr. Seedatee said he had himself seen how Indian children were prevented from going to or attended by European children. About 20,000 Indian children in Natal were unable to attend school because there were no schools for them. Only a limited number of Indian students were allowed to go to university. "These are some of the facts which reflect a policy of race discrimination," he said.

Mr. Pelletier supported the five-nations draft resolution.

Sweden suggested that the International Court of Justice be asked to decide whether the United Nations General Assembly was competent to deal with the issue.

The Swedish delegate, Mr. Sven Grafstrom, addressing the United Nations Special (ad hoc) Political Committee, also suggested that the appointment of a single United Nations representative or rapporteur might be the most effective way of bringing the disputing parties together.

S. AFRICA'S ATTITUDE DEFINED ON RESOLUTION

PARIS.—South Africa's attitude towards India's complaint against the Union Government is that the door is still open to the resumption of direct inter-talks with India and Pakistan, Negotiations would be on the original basis.

For this reason, the Union Government cannot accept either the Bevanian draft resolution recommending a three-man commission to help South Africa, India and Pakistan to carry through negotiations, or the Israel amendment proposing that the United Nations Secretary-General, Mr. Trygve Lie, should lend his personal offices to bring about a settlement.

INDIANS PERMANENT PART OF POPULATION

A CALL was made to the S.A. Bureau of Racial Affairs conference in Wartburg on Tuesday to face the fact that the Indians in the Union were a permanent part of South Africa's population.

THE speaker was the Assistant-Director of the Institute of Race Relations, Mr. F. S. Wyk, who is an Institute representative at the conference.

He addressed the delegates after considerable discussion had taken place on the possibility of repatriating South Africa's Indians.

He rebuked them sharply for crudity and lightly referring to corporal punishment and even the death sentence for the committing of "technical offences" by Asiatics.

He deprecated the constant use of the word "Coolie" during the discussions declaring its use to be an indication of an unfavourable attitude to Indians.

Later the chairman of SABRA, Dr. C. R. A. Coetzee, appealed to delegates to be more careful in their choice of words. He said that a stigma attached to the use of such words as "Coolie" or "Kaffir" and non-Europeans might be offended.

He added that he wanted it to be clear that the views expressed from the floor were not necessarily those of SABRA.

Mr. Van Wyk said that if delegates found that they would have to live in any case there "repatriation" of about 39 per cent of the Indian population was one they had been born in the country to move them would be no "repatriation" at all.

Once having accepted the fact that they were a permanent part of the community the goodwill and co-operation of the people would have to be applied to them.

If we accept their permanence we have not to do our duty towards them as Christians," he said.

Delegates referred pithily and lightly to corporal punishment, and even the death sentence for the committing by Asiatics of technical offences.

"This attitude is absolutely foreign to the concepts of the Christianity to the people of formerly operating people," he said.

"Speakers tried to justify the operating between Indians and Europeans had approved fraternising and intermarriage in certain circumstances.

"Our character as an Afrikaner nation will continue to condemn forcefully the spreading of people even of B.N. in certain instances the approval of this as a solution.

A large number of the delegates indicated support for Mr. Van Wyk by applause, and, judging by the tables, however, there was some criticism of her attitude.

'WON'T EAT'S' will EAT!

Here's a minor miracle for Mothers who spend precious hours persuading "won't eat" children to have "just a little of the nice food Mummy makes." You can quickly turn to "will eats"—and thus ensure every spoonful — when Nutmor porridge appears on the table! Children of all ages love Nutmor and it's so good for them. Nutmor contains all the elements needed for healthy growth, including minerals and vitamins. And it is ideal for building up children who are run down.

Stop begging your children to eat. Give them Nutmor — either as porridge for breakfast (and supper too) or as a milk drink—and watch them clean their plates, empty their glasses, every time. 3666-2

TALK OF THE BAZAAR

I HAD the pleasure of meeting [illegible] during the week. Of a simple and unassuming disposition, Pandit told me about his travels and the fact that India's cultural heritage was spreading to various parts of the world.

In the United States of America there is great zeal and respect for Indian spiritual culture and yogi discipline. In Vancouver, West Canada, the Pandit had to give four weeks and one week's classes on the Gita and Yoga. He thought about a hundred that would be sufficient for the classes, but to his wonder and delight, 175 Canadians — men and women — came their names to attend the classes.

He thought that they had done so as a matter of curiosity and they might soon leave or leave only. But there was another surprise: their attendance at the four weeks and showed so much serious interest and understanding of the [illegible] that a really keen sense thing which the world needs at this [illegible] and disillusionment and frustration of character. It was a matter of great encouragement to the Pandit himself.

ATTRACTING ATTENTION:

In the U.S.A. Pandit Hishi Ram visited many Ramakrishna Ashrams here and there and found the largest ones are in New York, San Francisco and Hollywood. He planned to find their addresses [illegible] Southern India and to visit them. Americans were also interested in Indian culture and they had [illegible] to be in touch with Indians and [illegible] and [illegible] contribute a lot of money to maintain and develop them.

There are no [illegible] any financial help from India. They have started 60 temples and three Second Vice-Ramakrishna missions and the Parliament of Religions in 1893. This work is steadily progressing, and there are now 107 Centres centres in big cities. The Indian Mission in Durban is one of these centres now held in great respect and liberally helped not only by Indians. There is great demand of such centres.

IN HOLLYWOOD

WHEN people talk about Hollywood they talk in terms of film stars and films, of luxury, gaiety, splendour and night clubs and when one has these thoughts in mind, one would hardly expect anything from the cultural aspect.

But Pandit Hishi Ram went to attend gatherings at the invitation of [illegible] and Temples in Hollywood, according to Pandit Hishi Ram, and he was a surprise to see that in such a place which is a world famous for pure making and studios and of actors and actresses that such a centre could flourish.

Pandit Hishi Ram used to attend gatherings at this centre and he saw a great number of young men and women devoting themselves to the spiritual discipline of the Temples.

laughter
Seek out the blooms of yonder,
rolling hills
To sing your song; for the flowers
that grow,
In shady vale, on many slope
Alike in bush and where the
gardener tills
In some mangled heart from
when the spear
Drove the out the first nestling
shoots conceived,
Or bred the seedlings in some
womb devised.
Whose shrieks the hilltops
screamed for soul scorn;
Or in some hollow eye who'll see
no more
The pencil dab and cheery leer
From tortured minds and tranquil
flesh rear
The blooms on the sultures that
followed the law.
And they who flee the petals fair
to wear,
A little yes, a lifelong curse
adhere;
For Beauty drinks from bloody
wells and tears
E'tant INVOLATE waters shall
never drear.

CHASE NOT THE BIRDS AWAY

By SUNSHOOER PANDAY

Two little birds were twittering
gaily
In a small tree in my garden;
"Come not the home of birds I
often see,
"Come not the tree where birds
would often be—
I thought some strangers they
must be,
And looking up, I saw one
perched
Beside a nest so neatly built.
Come not alone, this pretty bird,
With beak as red as the sunset
glow;
Its mate soon came from out the
nest,
And they joined in the chorus
once again.
To fill the air with their joyous
thanks,
To make their audience share
their joys—
The joy that we ourselves would
feel
If we were a home we've newly
built,
And as it was when, on the
virgin lands
Many dwellers ago, our parents
built
The homes where we now dwell—
And many homes have since been
built
In areas where our parents then
dwelt.
But who would think of driving
the birds away
And who would think of driving
you and me
From lodgings where we were
'tis Nature's song that the birds
should build
Where they can happily dwell—
'Twas Nature's song that we
parents built.
Where we could happily dwell—
'Tis not for some mere sin we
That I must go from where I am
To where he thinks that I should
be—
Let no one think we moved
courage here I
To stick to where my hearth and
home should be,
I dare not chase the birds away,
And dare not young men share
my—

WAKE UP YOUR LIVER BILE

Without Calomel—And Jump Out of Bed in the Morning Ready to Go.

Your digestive tract should empty about 2 pints of bile juice from the liver every day. If this bile is not flowing freely—food just lays there and does not digest. It may fast decay in the digestive tract. Then gas blocks up your stomach. You get constipated—you feel rotten, look rotten.

It takes those mild, gentle yet wonderfully effective Carter's Little Liver Pills to get those 2 pints of bile flowing freely to make you feel your self again. Get a package today. Ask for Carter's Little Liver Pills at any chemist.

OPENING OF SECONDARY SCHOOL IN VERULAM

Of the members of the Executive of the Verulam and District Indian School Board, Mr. J. B. Stephens, chairman of the Verulam and District Indian School Board, welcomed everyone to the function of the laying of the foundation stone by Mr. T. Moonsamy, the eldest member of the well-known Tom Mervgan Brothers family, of New Glasgow, Verulam, "a family well known for its generosity towards every deserving cause. Towards our school building fund, the family has contributed a sum of £500, an amount which not only gave hopeful encouragement but also an excellent start in our great endeavour," said Mr. J. B. Stephens.

Continuing, he said: "The Verulam and District Indian School Board was constituted in 1945, with the object of providing educational facilities for our people, and ever since has promoted faithfully and zealously that main object of the Board was to erect a school building for secondary education and with this end in view purchased the land on which this new building is being erected, at a cost of £1,600.

"It is gratifying to Members that primary education needs were not the Tuesday and Thursday classes opportunity availed and necessitate demanded the Board went full steam ahead with the erection of the Tabernacle Government Aided Indian School which was completed 18 months ago at a cost of over £5,000 and accommodates 270 primary pupils.

"I am happy to state that arrangements have been finalised to institute secondary classes at this new school early in the new year. At the beginning of this year the Education Department very kindly made provision for our Standard VII pupils at the Tongaat High School, and we on our part, made it an easy matter to have this building ready for occupation at the beginning of 1952.

Mr. T. Moonsamy thanked the Verulam and District Indian School Board for giving him the honour of laying the foundation stone.

Mr. Leslie G. Jordan, principal of the school, also addressed and moved a vote of thanks. He said: "I am not unaware of the many difficult ti ts to collect donations but the people have responded and have played the game and made

ary-General of the United Nations.

The Israeli delegate, Mr. Moshe Sne Fisher, said his amendment was an attempt to provide a new formula to secure negotiations between the opposing parties in the matter. Israel was ready to comply with the Assembly's decision.

He said he noted a trend in the Committee to get out of the Assembly's decision and to find a compromise. Obviously from both sides, it felt that the decision was almost nothing the most out of the question in order to keep the parties closer together to a final solution.

Mr. J. Michalowski (Poland) said South Africa had shown "open defiance" to the United Nations on its discrimination against coloured peoples. South African policy had traveled a long way from the day when Indians were welcomed into the country with promises of equal citizenship.

The racial acts in South Africa were very reminiscent of the laws [illegible] Germany during the last war, he said.

Mr. H. Lisoud (Lebanon) said the South African practice of racial discrimination must be abolished as slavery was, it was a renewal of the custom of the middle ages.

Mr. I. K. Ketsopulos (Upolu Samoa) also protested against the continuation of racial policy by the Union Government. He said he would vote for the Eventiano resolution.

The Delegation of Syria and South Arabia also criticised the Union Government for its treatment of the Indians.

SAYYADAVALA—In loving memory of our dear father, Shyradyal, who passed away on January 9, 1946.
As days and weeks and months and year,
Each light heart turns to memory,
Our silent thoughts of you are sweet,
Which can never be filled.
God gave us courage to bear it,
And strength to fight the blow,
What it means to lose him never,
Will ever know.
Inserted by his loving children.

In memory of our beloved late father, Ambrose Alfonsus, who passed away peacefully on January 11, 1951.
It's not the years or the moments
Which tells of a heart that is torn,
It's the awful years of after years
And a heartache silently borne.
Inserted by his loving children.

To announce to all who have him within the golden gates,
Ever remembered by his loving wife, daughters and grandchildren.

In loving memory of my dear husband, Ambrose Alfonsus, who passed away peacefully on January 11, 1951.
Dear husband, gone by Nature we must go,
Where and when only God does know.
With a heart full of love and sorrow,
Inserted by his loving wife.

In loving memory of our late father, Ambrose Alfonsus, who passed away on January 11, 1951.
Dear father, you were taken from us,
And left us sad and lonely,
But God saw you suffer no more,
And took you home only.
Inserted by his loving children.

In loving memory of my dear daughter-in-law, and our darling mother, who passed away on January 11, 1949.
Time has gone, the years have flown,
We think of you alone.
Inserted by her loving mother-in-law, sisters, brothers and children, Pooryan, Sudhary, Julia and family.

"NET VIR ROOINEKS"

If Mr. Sauers gives the credit for local legislation and to Malan and Donges the sound architecture it is to Fredk. Rodd that credit is for the genesis of the Group Areas Act must be given. In spite of evolution the present Nationalist Government is very confidence, and have finalised plans for the Group Areas, in Natal, for the Europeans are determined to do the same thing, and the latter's turn is next.

"Over a hundred years ago the forebears of the present Nationalist Party declared the principles of racial discrimination in their Act of Grievances and Volksraad Resolutions. They were in accordance with the fact that slavery was the basis of the Dutch, in the Cape Colony, and they declared the "interests" as the grounds that the Natives of the Sovereignty and Transvaal Republics were not such that it endangered the peace and security of adjoining territories. And after the Act of Union, and before the Anglo-Boer War, the S.A. Republic [illegible] the sovereignty of Victoria; the London Convention [illegible] with the Pretoria Convention, which [illegible] Swaziland, Simultaneously began the "Cecil Rhodes Question" on the Rand.

The Boer wars refused to heal and at the close of the century war broke out again, ostensibly for equal rights for the citizens of the Uitlanders (all-white) seeking the vote but really to obtain effective control of the Transvaal's wealth. The pro-white alternatives are interesting. The Dutch had lost the "Cape Boys" (Cape Coloureds) and they could not be conscripted to fight against the Natives and the "Coolies" very severely; the Uitlanders (white) opened the vote, petitioned Queen Victoria, "We have no voice in the government of the country" (Non-Europeans need go no further for parody).

Milner, with Downing Street's eyes on the goldfields, wrote caustic missives to the Dutch about the treatment of the "Cape Boys," and the then Secretary of the South African Republic replied "It is only by the exchange of reciprocal forbearance in the treatment of these and similar cases that the Native or coloured persons question in South Africa can be solved." Sound advice for all time. "Plain speaking will not aggravate a situation which is already about as strained as it can be," he went on, after this document, or better known, Anglo-Boer war broke out. The Dutch were beaten, there was humiliation and bitterness for them. Britain filled the cup of their sorrow to the brim and out of that sorrow they have built a formidable force—the Afrikaner Nationalism.

Mr. Keyliff Natal thinks that the Dutch have either forgotten or forgiven the early insults. What was once apparently a question of Dutch versus English is really Afrikanerdom, no less sinister for the change in the presentation. If it seems that apartheid is against the Hindu, and that in fact one of the principles [illegible] to eliminate the weak and [illegible] and then deploy and lay the ground for stronger [illegible] the battle with non-Caligiest may be [illegible] Natal's Indians are penned in patently unclean [illegible] other things, Mr. Civil Liberties Congress, the Trade Unions Council, Christian National Education, re-definition of legislation and laws allow the removal of [illegible] Natal's Indians might not, above remarks, be [illegible] Natal's Indians might not, above remarks, be [illegible] Natal's Indians might not, above remarks, be

Pressure Of World Opinion Will Solve Dispute

INDIA HOPES THIS WILL ENSURE S.A. CO-OPERATION

Sapa-Reuter to "The Leader"

PARIS.—India hoped that the "pressure of world opinion" would ensure South Africa's co-operation in solving the dispute over the status of people of Indian origin in South Africa," said the Indian delegate, Mr. R. K. Nehru, in the United Nations last week.

Addressing the Special Political Committee, which has discussed the dispute, he said they were not concerned with the apportionment of the blame, but he thought the Committee knew where the responsibility lay.

The United Nations General Assembly have called for the establishment of a three-man commission to help South Africa, India and Pakistan settle their differences over the treatment of people of Indian origin in the Union. The resolution, passed on from the Special (ad hoc) Political Committee, was finally approved by 44 votes to nil with 14 abstentions. South Africa was absent from the session.

The resolution also calls on the South African Government to suspend enforcement of the Group Areas Act.

A RESOLUTION submitted jointly by India, Burma, Indonesia, Persia and Iraq, which was revised, recommended the establishment of a three-man Commission to assist the governments concerned to settle the question.

Under the resolution, India and Pakistan would nominate one member and South Africa would nominate another. A third would be nominated by the first two.

In his address Mr. Nehru said: "Our concern is to bring to a halt by continuous pressure through this organisation, by moral pressure and the pressure of world opinion, any further action adopted by a member state which has infinite possibilities of conflict."

South African racial measures would result in not mere segregation but in the undermining of the economic position of the Indian community."

He mentioned these as "part of a larger policy, and a virulent policy, to reduce all non-whites in South Africa to the status of helots in the community."

Mr. Nehru answered a revised draft of the joint resolution, which in its new form would have the United Nations Secretary-General, Mr. Trygve Lie, appoint an individual to aid negotiations if the proposed three-man Commission failed to be established.

ALTERNATIVE METHOD

Mr. Nehru said that some members felt that there should be an alternative method if the three-man commission was not formed.

The feeling was that "one person may be master in a house if the door is kept open for negotiations."

Mr. Nehru said his co-sponsors had agreed to some addition to the new provision "who have been for and considered the steps to be taken thereafter."

If efforts to set up the three-man Commission failed, or failed, the Secretary-General was to be assisted by "such expert parties and in his discretion, other persons," appointed in the resolution to help them carry out the conciliation procedure.

Mr. Nehru said: "We have the right to expect that there will be some co-individual of the three-man needed for this purpose. We want the largest common measure of agreement and we are hoping that the addition will meet the views of some of our friends and will even further narrow down the differences.

"It is our hope that the South African Government will show a responsible attitude to the general desire that a solution of the problems may be reached on the lines recommended by the Assembly."

EQUALITY JEALOUS

On the question of the Union Government's contention to discuss the status of Indians in South Africa, Mr. Nehru said that all governments were equally jealous of their sovereign rights. They were equally anxious to protect themselves against unjustified interference in their internal affairs. Yet the Assembly had repeatedly rejected the Union's arguments of incompetence in this case.

"As a result of steadily-deteriorating treatment of persons of Indian/Pakistan origin in South Africa, relations between members states have been involved.

Mr. Nehru said South Africa's Group Areas Act was signed while efforts were still being made to convene a round table conference. The halting of discriminatory measures was a necessary condition for holding a conference.

The policy of apartheid was a challenge to everything the United Nations stood for.

"It is a challenge to the principles of the Charter, to the Universal Declaration of Human Rights, to the principles of equality and freedom and to the self-respect and dignity of man."

NON-EUROPEAN FRONT

Referring to a remark that South African Natives and Indians were building up a non-European united front to resist resolutions by the apartheid policy, Mr. Nehru said a movement of that kind would arouse the strongest resistance among the people of conscience.

Mr. R. H. Tyson (Australia) said his delegation had hesitated to receive the joint draft resolution, but decided that in the interests of the unity of purpose in the United Nations it would not interfere in internal affairs.

His delegation believed that each State should treat humanely all and authorise the United Nations to impose conditions for consideration.

Mr. F. H. Corner (New Zealand) said his delegation would abstain. In a divisive opinion from the International Court would not with the number of compromises

Modern Trend Is To Stress More On Human Values

THE validity of the voting at the United Nations on the South African Indian question is an indication of the modern trend to place more and more on human values," Mr. R. E. Father, Secretary of the Natal Indian Organisation, told "The Leader."

MR. FATHER said that now among places noticed the European people to a low level, because people, particularly in these times, with even a grain of sense in them, would ever think of discrimination based on colour.

The Indian people of South Africa have broken a lot of thinking within the next few months," continued Mr. Father "when local authorities are moving people to and fro in the name of the Group Areas Act. If we have any sympathetic feel for the Europeans in this country, it would be difficult to understand their attitude in refusing to the plan submitted by the Natal Indian Congress and the Durban City Council and which was sent to Dr. J. G. Strijdom in respect of Pleiter-maritzburg, was turned down, thinking that the White community of Natal have lost all sense of humour, all sense of progress and all sense of purpose. Illogical in relation with examples of the consequences that befell empires and Nations which drove themselves into violence.

ALL-WHITE HINTERLAND

The Durban plan has been the subject of the different opposition from the Europeans, but none of the Europeans have shown any regard for the Indians. The idea of separating about 50,000 Indians from Sydenham, Overport, Cato Manor and Clare Estate in order to make the town in the gateway for an all-White hinterland, but also to ensure that the Natives is not traversed by Indians.

The Durban Civic Association, an all-White Association, feels that it would be a hardship to displace the Indians, but agrees with the views of the Provincial Executive Committee that Indians should not go through the Native areas.

HELICOPTERS

"To obviate this, the suggestion was made that building of a tunnel under the Berea. This was turned down, but the question of the tunnel would be much more expensive than the scheme of 50,000 Indians. But I think the cheapest method by which Indians would be kept out of the Berea is to provide helicopters so that they could be flown over.

"These plans simply reduce the European people to a level of stupidity, particularly in these times with even a grain of sense in them would ever think of discrimination based on colour. The Indian people of South Africa have broken a lot of thinking within the next few months," continued Mr. Father "when local authorities are moving people to and fro in the name of the Group Areas Act. If we have any sympathetic feel for the Europeans in this country, it would be difficult to understand their attitude in refusing to the plan submitted by the Natal Indian Congress and the Durban City Council and which was sent to Dr. J. Australia's Support of S.A. Criticised

"ALIENATING HALF THE WORLD FOR THE SAKE OF A CLIQUE IN C.T."

Sapa-Reuter to "The Leader"

MELBOURNE.—Two Melbourne independent newspapers, "Age" and "The Argus," have criticised in editorial articles Australia's support of South Africa's vote against the United Nations resolutions on the dispute about people of Indian origin in the Union.

Just would at least clarify it, he said.

HINDER NEGOTIATIONS

Mr. F. Van Langenhove (Holland) said the draft resolutions would hinder direct negotiations and his delegation would therefore abstain.

Lord Tweedsmuir (Britain) said his delegation would also abstain from voting because it believed the question of competence should be referred to the International Court for an advisory opinion. But his delegation earnestly hoped the three governments would confer with each other to solve their difficulties.

(Continued on page 6).

In Paris on Saturday, South Africa and Australia were the only nations which voted against a proposal in the United Nations Special Political Committee to set up a three-man Commission to help India, Pakistan and South Africa settle their differences.

"The Argus," under the heading "Why, Mr. Casey?", said South Africa's apartheid policy was subservient to Australia's 7,000,000,000 Colombo shilloleys, adding:

"Why do we make these fantastic suicidal gestures? What do we hope to gain by alienating more than half the world for the sake of a clique in Cape Town?"

"Age" said Australia should have abstained from voting

The Commando Idea, 1652

WHEN Jan van Riebeeck founded the first European Settlement at the Cape of Good Hope, his border lands were continually invaded by Bushmen.

AS first Governor, he organised all free burghers into militia defence units under commandants of their own choice, and supplied them with ammunition, but they provided their own arms and equipment. These soldier-settlers thus founded the South African Commando tradition.

TALK of the BAZAAR

INDIA has gone to the polls. So far reports from various parts of the country indicate that it has not been without its fighting vein.

For instance the prohibition policy of the Bombay Government had "bonafides" teddy tappers out in a different way.

A teddy tapper speaking at an election meeting addressed by a Bombay Minister explained: "Since the advent of prohibition I could tap trees without paying licence fees or tree tax."

He had one complaint to make —the increase of police. He appealed to the Minister to stop the police "nuisance."

Nearly 10,000 teddy tappers were thrown out of employment after the introduction of prohibition in Bombay.

THE FIRE BRIGADE

A "ring" caught the "bulge" at the local fire brigade to break an election meeting in New Delhi.

The brigade had received a false alarm from the area where an election meeting was in progress. On arrival of the fire engine it was found to be a false alarm. The people disowned its name.

A "labour saving gadget" for election propaganda is being widely used in Ahmedabad, the second largest textile city in Bombay State. The mendicants carry with them gramophone records of their election speeches and play them at public places. Bombay state will go to the polls this month.

FRANCHISE FOR ANIMALS?

AN elephant and two monkeys were all who turned up at a polling booth in Orissa for the general election. The booth had to return empty boxes as no voter came to this out of the way jungle outpost.

Orissa is the third state to go to the polls in the country's first general elections.

"VOTE AS WE PLEASE"

NEARLY 200 women, meeting in Bombay, decided to exercise their franchise "as we please."

They resolved not to vote for candidates "chosen by our husbands or parents." Women have nearly half of India's 175 million electorate.

And then really this story: Only one voter turned up to exercise his franchise at a polling station in the hilly region of Orissa State.

The region, which figured prominently in the days of the independence movement, has nearly 2,000 on the rolls.

Orissa is the fourth state to go to the polls.

Ballot boxes for the polling booths in India in Pardesi Cantonment (Parbhani district, Hyderabad), where voting took place on December 20 could not be taken to the Returning Officer because of the presence of a mountain in the vicinity known to the Chief Electoral Officer only.

He added that the officers refused to meet the authorities earlier in begging the mountain to move calamity should befall them.

OUR READERS SPEAK

INDIAN BROADCAST

I THINK I will be voicing the opinion of many people when I say that it is time something was done to improve our Indian programmes.

Despite the fact that only half an hour is allowed to every week, little music is given by those local performers. I submit that we have heard some good songs, but this is seldom, if ever, heard. Think, I say, of the wonderful talent we have in this country. I would suggest an auditioning week in the signature tune.

The only time I enjoyed the programme was when we had some recorded music from India.

Could we not hear some more of this recorded music?

"KAVALAN"

By PANJA

THE playing of Kootan Pillai's great play "Kavalan" in tamil welcome news to the Theatre lovers. The performance, played very well indeed at Mayfair Theatre last week, was attended by a large audience. The public is quite appreciative and Chetty has to be thanked for producing this play to the public.

Kootan Pillai's productions have always been of excellent standard, and for himself is a highly talented dramatist and musician. His songs are also tuneful and impressive. The supporting cast of artistes, among whom V. A. Raidoo who is one of the leading men in this group, do their parts well. Favourable comments and felicitations have been showered on the players.

We are proud of Kootan and his group of artistes and wish them success for his play "Kavalan" deserves patronage for directing the public's money in the new control way.

EAST LONDON TAMILS TO BUILD THEIR OWN SCHOOL

EAST LONDON.—Tamilspeaking Indians in East London, who form more than half of the Indian community, are going to build their own school and the work will probably be carried out by members at school Board themselves. The decision was made at the annual general meeting of the East London Tamil School Board held recently.

MR. S. MANICKUM, secretary of the Board, told "The Leader" that members of the Board, many of them young men, hoped to build the hall themselves and in this way restrict the cost.

"None of us are building artisans or have builders engagements," he said. "Members of the Board will apply in the evenings after their day's work and during week-ends."

East London Technical College to ask if they can receive instruction in carpentry and bricklaying. We will use this knowledge solely in building the hall."

The Board would approach the City Council with a view to obtaining a plot of ground for the school near the Johns Rimmer School in the North End, he said.

At present more than 100 Indian children attended Tamil classes every afternoon at the St. John Primary School, East London Tamilians wished, however, to have their own hall where the future generations of their children would be secure. It was intended that classes might also in the Tamil vernacular and boxing and other sports instruction would be given in the hall.

FREE EDUCATION

The East London Tamil School Board hoped in time to give free education to Tamilian children. It would pay for school books and the teacher's salary out of funds raised by way of concerts and bazaars.

"We also hope that when the school has been completed and is being used we may receive a grant from the Provincial authorities," said Mr. Manickum.

"It is our intention in first of all collect the sum of £500 in East London and then tour the Union with a view to making up the large sum of money to build the school.

"Unfortunately for the Indian community, there are no Indian builders or carpenters in East London. This type of employment is restricted to Europeans and Europeans in the Cape. That is the reason why we are sending our boys to Technical College at East London to assist us in carpentry and laying."

The following were elected to the East London Tamil School Board: Messrs. K. Gengan, R.I.N. (President), T. Naicker (Secretary), S. Pillay (Treasurer), K. V. Reddy (Vice-President), K. Govender, S. Manickum, J. Gregory, S. Naicker, M. J. Gregory (Hon. Auditor), S. Pillay (Committee).

THE CONGO KID KO'ED BY LESLIE McKENZIE

YOUNG YEERAM, the South African Non-European bantamweight champion, was disqualified in the third round in a scheduled ten-round non-title bout against Shamsh Osman, at the Durban City Hall on Monday night. This gives Shaikh Osman a good chance to have a crack at the title. Leslie McKenzie battered the wits out of the Congo Kid in the fourth round.

THE Yeeram-Osman fight almost ended in a farce in the first round. Yeeram concentrated more on holding and adopting fancy tactics, and the referee even found it necessary to warn him. Shaikh Osman appeared to move a bit fast in this round, but Yeeram, after being on the receiving end of a few punches, clinging barrages and pushes at close quarters, began to find his footwork. His method, frequently in the open, but never neglecting the opportunity.

In the third round a few thrills were added to the entertaining bout when Osman had the champion in the ropes with a barrage of left and rights, and Yeeram beat on to the ropes for good measure. Yeeram was given a warning for persistently moving backwards from Osman with his head down, and when pushing, the referee disqualified him. The decision was greeted with boos.

MOTOR CYCLE TRACK MEETING

The officials of the Durban Motor Cycle and Car Club are opening up efforts to give their patrons a good afternoon's sport on Sunday. The races for the three will be headed by a grass track motor cycle meeting at Currie's Fountain commencing at 2.30.

Mr. Sonny Kendlah, the secretary and that the riders have promised to do their best to put up a good show.

Judging from reports received from the riders' camps, I can assure that there will be plenty of thrills and spills and the spectators are in for a treat.

Mr. Jimmy Chetty, the acting captain, is also busy organising a motor cycle gymkhana of the bikes and he feels that the riders will surpass all his fondest expectations. The club is employing a qualified mechanic to be in attendance at the pits in order to fix up any bike that crack up.

Each rider will be riding to maintain his position in the event he is downed, that there will be plenty of thrills.

Riders are requested to be at Currie's Fountain at 1 p.m. sharp to enable the programme to be run off and all marshals are asked to report to Mr. Kendlah at the same time and also at the Goodwill Lounge, Victoria Embankment, for the special instructions to give them.

WAKE UP YOUR LIVER BILE

Without Bile—And Many Out of Bed in the Morning Feels Like Cr... Your digestive tract should receive about 2 pints of bile juice from the liver every day. If this bile is not flowing freely, your food may not digest. It may just decay in the digestive tract. Durban Teams Eliminate Inter-Dis From Intertown Series

BOTH the Durban first and second teams convincingly beat the Inter-D District teams in the intertown competitions played at Currie's Fountain and Mayville over the week-end.

Durban's first team won by eight wickets, while the second team won by 86 runs on the double innings. The veteran cricketer, M. I. Yusuf, scored 136 for Durban's second team.

PLAYING at play at the Durban first team's decisive win over the Inter-D last wicket stand of E. A. Ellis and Yusuf, which added 66 R., after the vanguard had fallen for 66, reduced the admission and placed Durban in a winning position.

Half-time saw the score mainly responsible for routing the eastern for 98, to which score from the last of Dr. Sheral.

Fielding was certainly well within the result of Durban establishing the fact that they have a powerful array of batsmen. But there were a few bad ones when three of Durban's best fell in Gordon Richmond, G. B. R. Dutton and Dr. Sheral were sent back to the pavilion in quick succession

To Appear in "Kavalan"

V. S. Naidoo, who takes the part of the king in the play "Kavalan," advocates the caste system in his kingdom.

Having watched the rehearsals of "Kavalan," one gets the impression that the actors and actresses are putting everything in their work to make their debut in the Durban City Hall on February 15 a very successful one. Judging by public comment, the show should be a "sellout."

Pandit B. J. Maharaj of Durban, returned during the week by the "Pretoria" after spending four months in Mauritius.

Mr. and Mrs. D. L. Maggott and their daughter Cherrell of Kimberley, Cape Town, left for home on Monday after spending their holidays in Durban.

Mr. and Mrs. A. Kantsman and family of Oxford Street, East London, are spending their holidays with Mr. A. E. Pillay of 7 Clarke Avenue, Overport, Durban.

Mr. and Mrs. R. G. Reddy and children of Chatsworth, Durban, spent their vacation at Ladysmith and were the guests of Mr. and Mrs. N. Govindsamy.

TO A CALLOUS DISREGARD OF HUMAN RIGHTS

S.A. has added Defiance of the Truth

From Our Own Correspondent

NEW DELHI.—To their callous disregard of the declaration of human rights, the Government of South Africa have now added defiance of the truth. This is the impression one gets according to informed circles in Delhi from the speech made by Mr. G. P. Jooste, South Africa's representative in the Political Committee of the U.N., on the question of treatment of Indians in South Africa.

Mr. Jooste in his speech tried to make out that it was India which had created conditions making it impossible for a tripartite round table conference to be held this year to discuss this matter in accordance with the 1950 resolution of the General Assembly.

HE also alleged that "the Union Government wanted the Group Areas Act to be put into effect after the negotiations for a round table conference had broken down."

It may be recalled that the General Assembly resolution had called upon South Africa not to proceed with the Group Areas Act "in the light, inter alia, of the recommendations of the Round Table Conference."

On March 3, 1951, the Government of India requested the Union Government whether the latter was agreeable to the holding of a round table conference in accordance with the U.N. resolution. On March 8, the Union Government informed the U.N. Secretary-General, repeating the Government of India, that they considered the resolution unacceptable and that subject remained thereof, outside the purview of the U.N.

On March 16, the Government of India again pointed out to the Union Government that the resolution of the U.N. Assembly was directed in no sense against the subject of the treatment of people of Indian origin in South Africa in an atmosphere free from prejudice.

The Union Government was urged to reconsider its views and agree to round table conference in accordance with the terms of the General Assembly's resolution. On March 21, the Union Government refused to hold a conference on the basis of the resolution.

All these documents are in the U.N. Secretariat, it is learned, clear that it was South Africa and not India which refused to set up a round table conference in accordance with the General Assembly's resolution of 1950.

PRESS COMMENT

THE Hindu Government's official journal from the United Nations Headquarters continues to draw Press support.

Describing it as "an attempt to blackmail the United Nations into acceptance of interpretation of the mandate territory of South-West Africa in the South African Union in defiance of the United Nations Assembly's wishes," the Times of India says,

"The Malan Government cannot have their frightened at the prospects of losing an ally in the U.N.

BENEGAL RAU ELECTED TO WORLD COURT

THE United Nations General Assembly has elected Mr. Benegal Narsing Rau as judge of the International Court of Justice at The Hague. Four other nominees from the Soviet Union, United States, Norway, and Uruguay were also elected.

Sir B. N. Rau, Leader of the Indian delegation, received the congratulations of many of the visiting diplomats at the U.N. following his election to the International court of Justice.

Photographers crowded around him in the main lobby of the Lake Success to take pictures of the first Indian to be elected to the highest legal body in the world.

Mr. Rau said, "I am very glad because it means entering a new sphere which, I think, will be more congenial to me."

The delegation attached particular importance to his election, as it was regarded here and on both the country and the Economic and Consultative main U.N. bodies on which he has not been represented.

It is understood that Mr. Nasrau Rau will have to be in The Hague only when the Court is in session.

SIR B. N. RAU

APARTHEID BREAKING DOWN

CAPE TOWN.—"The pattern of apartheid which of itself breaks down—as a failure—it is doing at the moment," said Mr. Quintus Whyte (Director of the Institute of Race Relations) in his annual report, presented to the Institute Council in Cape Town.

"Unless this is frankly realised," he added, "the friction within the country will be greatly increased.

"It cannot be doubted that the relations between Europeans and non-Europeans have fallen on evil days.

"Measures have been introduced without consultation with non-Europeans.

The non-European peoples have reacted strongly. Feelings of African nationalism have been aroused and a surge of discontent has spread from the 'urbal few to the inarticulate many,' he says.

Medalist in Botany

A DURBAN Indian student, Sonlal Jhakra, who received an award at Fort Hare by being the one to get a distinction in botany, has been awarded the Senior South Africa for 1952 in Botany. He is the first non-European student in South Africa to receive this award. He obtained the highest mark among both European and non-European students.

DURBAN LIBRARY REJECTS FIND NEW RESTING PLACE

THE non-European Municipal Library in Block Street with a membership of 1,900 is now, it seems, to be rushed on to the ever-so-many-eighty-seven heritage on the "good intentions" of the Municipality.

Since the library last started in July—then as a mobile library—a negligible number of new books have been apparently bought, for the library shelves now accommodate most of the reputable from the main European library.

Most of the reputed books have undergone the plunder brought by bookworms, and these books, covered with "worm holes" are placed on the shelves, manifestly to fill space.

One complete shelf has been devoted to "monthly army and navy lists"—perhaps there was no place in the main library. Of what use these "monthly army and navy lists" are to the non-European reading public is difficult to imagine.

Reported books from the main library continue to come in, but books by popular authors do not see the shelves of the non-European library.

The reference section of the library is also poorly stocked and ill stocked.

When the library was opened the Mayor, Mr. Percy Osborn, promised that the library would compare with any of its kind in South Africa.

Although we do not expect the library to be stocked overnight, it does not seem too much to ask that at least new and up-to-date books should be stocked.

Another "invasion" by the Congress might have the desired effect.

RACE UNITY IS BOUND TO COME

PANDIT Rishi Ram, the international lecturer on Indian culture, religion and philosophy, firmly believed that race unity was inevitable, and that "we are on the verge of giving birth to a new mankind," when he spoke at the Gandhi Hall last week to a packed audience.

"Essentially humanity is one," he said, "and if we can realise this great ideal of oneness, conflicts and hatreds will disappear. We are now thinking in international terms."

"We are living in a world different to that of a hundred years back," Pandit Rishi Ram said. "Today science has brought us together—humanity we are one physically we are bound together."

Hundred years back, people were living great distances apart, Pandiji continued. Today, thanks to the march of science, a little economic change affected all markets of the world.

"Intelligently we are becoming one. Universities throughout the world are teaching the principles of liberty, equality, and love. They are developing the same outlook. Yet, unity is not complete.

"There is something lacking."

Pandit Rishi Ram emphasised, something which was more essential than mere physical unity. "Even those who are pulling up to-gether internally as well as one physically we are bound together."

"If there is rationality, and liberal principle, if we believe in human nature and work together on the basis of love, we will be on the verge of giving birth to a new mankind. Unless we develop spiritual unity, conflicts will continue," was Pandit Rishi Ram's message to the audience.

"Essentially humanity is one."

TALK of the BAZAAR

IF a critic writing in leading Indian film magazine can describe the ancient art of Indian classical dancing in such strong terms as "it has been turned into a downright racket by some of our film producers", then I do not know where our dancers come in". The writer says that a film dance has become a most revealing feature of our pictures.

I am certain that few, if any, of us in this country are sufficiently qualified to make any criticism at all of the dancing we see in the pictures, let alone the quality of dances performed by our local artists. Rather, I am inclined to believe that our people appreciate both.

However, after reading the description by this writer of the dances by Indian film stars, it will be interesting (and amusing) to hear from "Talk" readers about what they think of our local Indian dancers.

MARVELLOUS PIECE

MUMTAZ ALI, ex- Lutonian, has made the high grade, the eye and foot he has beaten Uday Shankar hollow by presenting a marvellous piece of dance art to him.

Lovers rolls the eyes, pushes the legs and behaves she has ever passed. Madam Menaka at her own game!

Alahanda rolls her all, performs some immortalia and she pects us to believe that she is a better dancer than Shalimar East and Menaka put together!

Chinnan with jumps like a monsoon-lorry, gives some "Indian ballet" experiments and continues to pass these chimpanzee-antics as dancing.

That "pocket-size" Kuku gives some violent yerks to the body, works into the camera and expects to dance her way to our hearts!

"GOOGLY BOWLER"

PROF. NOREZ twists the body like an "India rubber boy, juggles the hand like a "googly bowler" and expects our applause in advance.

Hem Gopal runs breathlessly round "the set", makes a few dainty-toes "minor movements" of the body and expects us to go into exclusions over his dancing feat.

If these people are the only exponents of India's ancient dances art on the screen, let us not have any dancing at all on our pictures. Let not the sensational reputation of Indian dancing as fabulously built up by pioneers like Anna Pavlova, Uday Shankar and Menaka be dragged down to their very own through these hybrid dance-abortions of film-dancing.

India has a number of first rate dance exponents who have made substantial reputations abroad, and it is only we Natal Indians who have not seen Mumtaz Ali and Alahanda to give dances in our own theatres.

Though we have heard of several Indian dance celebrities like Uday Shankar, Menaka, Ragini Devi and others hanging aloft the banner of India's cultural heritage in different parts of the world, it is seldom that we come across an Indian who has mastered the intricacies of the different European and American schools of dancing.

So, it is a pleasant surprise to find that Bombay's popular dancer-conductor Sam Xavier and his charming Hungarian Ruby have returned to India.

SINGH.—In loving remembrance of our darling husband, Ramsingh, who passed away on January 26, 1949.
A light has gone our threshold
A voice we loved is stilled;
A place is vacant in our home
Which never can be filled.
To a beautiful life once a sudden end,
We have lost, but heaven has gained
In loving memory (no Prayers by date).
Afternoon musings and over still,
Our thoughts flow to you, dear one,
Father in The glorious keeping
Leave us here our loved one keep ing,
Cherished by her loving parents, sisters and Billie Pramjiee, 47 Grove Road, Durban.

HARRIGAUD.—In loving memory of our dear mother, Pullammah, who passed away peacefully on January 26, 1951.

To which we can never forget,
Memories of you we dear,

Left alone on, but sometimes step
As near and dear as yesterday,
Just a memory, fond and true,
Dearest mother, I'll love you.

PRECIOUS FRIEND
Now have written and parts heartened of friends departed,
But what should we write and how should we sing
To express in one verse or
smartly parted?
Death (what a killjoy it has been) claimed him
A friend so unfeignedly and sincere.
Could we but fight death!
But death is cruel, and cannot reckon with human might.
Dear friend, we feel that you have left us too soon, but there is no doubt it was God's will.
Calmly, dear friend, to rest with you.
"The death is dead, not he."

NURSING

IN recent months this question has attracted a great deal of attention, indicating the seriousness of the position. Many reasons may be called forward here be put forward to explain the "reticence" of the Indian girl to take to this profession. Solutions, ranging from the importation of nurses from India, to Indian men becoming nurses have been suggested. In the meantime we continue to depend on women of either communities to fend our sick.

The Indian community has come a long way since that day when the first batch of girls walked in around one of a hospital. Conditions have changed vastly; lack of sympathy, opportunity and education are no longer considered as "reasons". Yet the death and the "reticence" persists. Not that there has not been sufficient propaganda and, in the words of Dr. Taylor, "well-publicity" by Dr. Taylor. In spite of all this the results cannot be said to be encouraging. Some people, in an effort to find possible causes, have suggested that caste might have something to do with the "reticence." In India, even today, caste is a formidable barrier (the use is the practical shopping up, the use of the caste system, and the use of the caste system, and the use of the caste system, and

On a curve at 75 m.p.h. a large nail burst my tyre!

1 "About two miles from Edenberg I had a blow-out," writes Mr. T. Lander, of Oranjeriet, Cape Town. "I was taking a slight bend at about 75 mph. when a large nail entered my right back tyre at the shoulder."

2 What happened? Did the blow-out send the car skidding across the road, out of control, until it overturned at the verge, ending in a fatal accident?

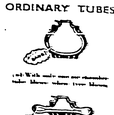

3 No! Nothing happened! Thanks to his Life-Guard Safety Tubes Mr. Lander felt only a slight drag and he was able to pull up without mishap to investigate.

This is a true story. It happened here in South Africa. It is one of many recorded instances where probable tragedy has been averted by Life-Guard Safety Tubes. With lives and property in your keeping every day, you cannot afford to take risks which Life-Guard Safety Tubes can avoid. They are obligatory equipment on public vehicles in America and Great Britain, and also in many parts of the Union. You owe it to your family to fit them to your car today.

Plans Now Ready For High School in Clairwood

THE Congress never intended to run its classes as a permanent feature, but only as a stop-gap until an additional high school has been built in Durban. The Natal Education Department has plans ready for a high school in Clairwood, and we are hoping that this year a start will be made on the building," Mr. A. M. Singh, Chairman of the Congress Education Committee told "The Leader."

MR. M. R. NAIDOO, the Hon. Principal of the Congress High School, announced that enrolment for the Congress High School for Std. VII classes will begin on Monday, January 28 at the Hindu Girls' Government Indian School, Grabler Street, Durban. Mr. Naidoo or his assistants will be available from Monday to Friday between 3.30 and 5.30 p.m. daily.

The classes will officially open on February 1, by which time it is hoped that students who have passed their Std. VI examinations, will have ascertained their position in regard to admission to other Government Secondary Schools and Sastri College.

PLEASED WITH RESULTS

Mr. J. N. Singh, Chairman of the Congress Education Committee, said that he was pleased with the results and congratulated Mr. M. R. Naidoo and the staff for their untiring efforts under difficult circumstances in maintaining and advancing the Congress High School classes.

In the circumstances, the results of the J.C. examination was excellent. Of the 62 students who sat for the examination, 40 obtained first class and there were 20 second class passes. Only two failed. The percentage is good even for a regular high school. The students who have passed, will now be eligible to enter the matric classes at Sastri College.

GIRL STUDENTS

Girl students who are unable to gain admission to the Girl's High School, should register at Davis Hall Crescent Junior School on February 1, if the necessary forms certify it, both Std. VII and Std. Matric students will be run there.

"The Congress never intended to run its classes as a permanent feature, but only as a stop-gap until an additional high school has been built in Durban. The Department has plans ready for a high school in Clairwood and we are hoping that this year a start will be made on the building of the high school.

"In the meantime we are glad to announce that the Department has agreed to subsidise the payment of lecturers at the Congress High School on a basis of 75 per cent, of their remuneration, as soon as these subsidies are received, the fees charged will be reduced," said Mr. J. N. Singh.

Until last year students paid £1 per month as fees. This year Indian students at the Congress High School will write the Junior Certificate and new students will be enrolled for Std. VII classes.

LETTER FROM ENGLAND

A PEN pal from England has written to a Junior Leader member, who has passed the letter on to me. He has asked me not to mention his pen pal's address. Dear Read,

Well, a lot has happened since I last wrote to you. the Festival of Britain has just finished. It was an exciting year in England. I have never seen so many people from other countries come to see what this all country can do. Liverpool, the well-known port of Britain, is just across the River Mersey from Wallasey. At Liverpool, there were big displays of all kinds. There were concerts of well-known ...mpanies, all the Liverpool Philarmonic Hall and exhibitions of art and sculpture. Of great interest was the Festival Ship, the "Campagna." This ship is an aircraft carrier. It was specially converted into an exhibition ship. It sailed round England calling at all big sea ports, and visitors were allowed on board, it was of special interest to me, because it visited the ship had been converted in ...ere docks in Wallasey.

Of course, London was the biggest centre for the Festival. You must have heard of the Dome of Discovery, and Battersea Pleasure Park. It was not only in large towns which joined in the exhibition, for the small villages also helped to make it a Festival. Even the small village of which England is so proud and have used in the primary schools will be welcomed. Good year work books to "Chachajan, 325 Pine Street, Durban."

The fighting in Korea, the disturbances in Egypt and the forfeiting of our oilfields at Abadan are events which have troubled us a great deal here in England, and I hope this year will end all these British headaches.

GOOD FOOD

Winter's here again, but up till now, we haven't had any snow. Strong gales have delayed shipping and during the last couple of days we have had the thrilling adventure of the "Flying Kestrel", the ship that finally sank in the English Channel after Captain Carlson's magnificent effort to save her.

This year I am feeling adventurous, and I have decided to go to France and Germany for my summer holidays, I'm going on my bike. I haven't been out of England before. This time, I am going for some good food.

Food isn't plentiful in England; there is much rationing. Still I'm not too thin, and I weigh nine stone, a fair ninestyl, Pal.

Teenagers Column

HELLO TEENAGERS,

Congratulations to all those who have been successful in the recent examinations. Whether it be the P.S.C., Junior Certificate or Matriculation, you have had written the Matriculation must have experienced much anxiety, for the results this year were posted quite late to the students; most of them received their results on Monday.

And the contents of the letter had decided whether they should laugh or cry after a month's patient (?) waiting. Examinations are like that, however, to those who have been unsuccessful I mention the oft repeated and overused proverb: "Failure is the stepping stone to success." Try saying which, believe me, it is as proved true too often.

And the unsuccessful matriculants can become a doctor, teacher, lawyer. That is all. What if the student does not fit into any of these professions? Is there no other alternative?

We could not do much about it here in South Africa. But I do hope that on choosing a career that you will choose one which suits closely fits in with your aptitudes, likes and dislikes. Consult your parents to make them think your way, if you have made up your mind, do not take up Medicine though you might not like the profession.

Before choosing a career, I suggest you speak to the Principal of your school or anyone else who is in a position to advise you. I wish you all the best.

ALL INDIA CONGRESS STATES:

S.A. RACIAL POLICY CHALLENGE TO ASIA

JOHANNESBURG.—The All-India Congress Committee, of which the Indian Prime Minister, Mr. Nehru, is president, said in a message to the conference of the South African Indian Congress during the last weekend:—

"The racial segregation policy of the Union Government of South Africa has been and is a challenge to all the peoples of Asia and Africa and is, indeed, a defiance of the basic principles of the Charter of the United Nations and the Human Rights Commission of the United Nations.

AS such, every country and every people who believe in these human basic rights and in the Charter of the United Nations must, if they are sincere and earnest, object to this apartheid policy and give their support to its removal. Even practical considerations lead to the same conclusion, for nothing can be more dangerous and harmful to the world than racial pride and racial hatred.

"I have expressed these views briefly in a letter I had from Yesterday, I also told them that they were sickness that [illegible] every dark person in the world and that the basic cause of [illegible] and racial discrimination lay in the feeling that whites in Sheffield they were [illegible] themselves."
