RONNIE GOVENDER SAYS:-

Non-racialism and women's tourney should revive tennis interest

THIS year, the South African Indian Lawn Tennis Association will hold its biennial tournament and championships during July. It is heartening to see that the officials are making a concerted effort to lift this great sport from the doldrums.

GIVE TIME FOR THE SOCCERITES

Maritzburg soccer team

A WORD TO THE NATAL SELECTORS

Line is the victorious Indian soccer XI for whom the medals held out little hope of beating the Natal Coloureds after the retirement of key players to play in representative matches.

Goalkeeping and goal-getting won the day

THE Natal Indian-Coloured clash at Curries last week was a game for choice in which fortunes changed hands swiftly. The Indian victory was largely due to the excellent goalkeeping of Singaravello and goal-getting Bob Pillay. The Coloured side, for some reason, was not as strong as the one fielded previously, but perhaps the game was a little more exciting. The final score 5-4, reflects the closeness of the game.

Legal Action threat to Association

STEPS will be taken by the Borough of Stanger against the Stanger Recreation Grounds Association if it fails to carry out proper sanitary arrangements at the ground.

Mr. R. S. Ronald, Borough Health Inspector of Stanger, told "The Leader" that although the Stanger Borough had written to the Association to the effect a month ago, nothing in the way of sanitary arrangements had been provided by the Association for those who turned out in large numbers to watch soccer at weekends.

He said that the Borough had given the Association a month in which to provide the sanitary, and now that the time had expired, the authorities were contemplating the next step.

Mr. Ronald said: "I understand that the Association is planning to arrange a meeting with the Borough to ask for financial assistance.

Mr. Ronald said that in view of the outcome of the next general meeting, he would write the Association to consult with the Borough's request within a specified time.

"If this is not done, then the Borough will be forced to close sports and other events from taking place at the grounds, and if necessary, legal action must be taken," Mr. Ronald warned.

WALL TO KEEP VANDALS OUT AT SCHOOL

Mr. and Mrs. Ebanor Moharaj stand with their three children in front of the dismantled car in which Norman was last seen playing by his mother before he was murdered.

WAS IT REVENGE?

Who battered innocent child to death?

MYSTERY surrounds the brutal murder and finding of the badly battered body of Norman Moharaj, the three-year-old son of Mr. and Mrs. Ebanor Moharaj of Earl Haig Road, Pinetown Hill, Natal (Leader coverage).

THE Durban City Council is to spend £2,200 to erect a 7ft. brick wall on the four boundaries of the Centenary Road Indian School, Durban, to prevent damage to the school property by vandals due to the siting of non-European bus ranks in the near vicinity.

Knife whistled over his head as he ducked

DESPERATE of mind and quick action saved the life of Mr. Perumal Naidoo, a 47-year-old father of 12 children of Newlands, when an African tried to cut off his head with a sharp bush knife one evening last week.

Hit-and-run case at Raisethorpe

DIED AT WHEEL OF CAR

MR. V. R. PADAYACHEE, a 62-year-old retired businessman, of Durban, died on the North Coast Highway, near the Mandeni Butchery last week, after it is believed, he had a heart attack, while driving home a party of relatives, including his wife, from a visit to Wesbank, Natal.

The other occupants — two women, a man and a three-year-old child — did not suffer any injuries except shock and slight bruises when the wheels swerved and struck a bank.

Mr. Padayachee, the wife of the dead man, told "The Leader" that the party was returning from a visit to the home of a relative of Mr. Padayachee in Wesbank, when the incident occurred. She was seated on the back seat with Mrs. G. V. Moodley and her three-year-old son Deviran. Mr. Moodley was in the front seat.

"When we neared Mayville Hotel it about 9 o'clock in the evening, the car swerved violently as my husband slumped over the steering wheel," she said.

An ambulance belonging to the St. John Ambulance Division, which was passing, stopped and took Mr. Padayachee to hospital. The ambulance was speeding to a nursing home in Victoria Road with a European woman patient.

Mr. Padayachee died a few days before taking his family to settle at Kearsney. He had already made arrangements at his home in Pelham Road, Durban North, and was preparing to join them in the coming new year.

STERLING WORK FOR POOR BY COUNCIL

EARLY last year, a small group of social workers, headed by Mr. Zarkee Pillay, the well-known Durban weightlifter, banded together and formed the Clairwood Health Council, its aims being the extension of the knowledge of health, hygiene and child care to the residents of the area, the majority of whom are poor.

SATURDAY will mark the opening of the big, three-day Winter Meeting of the Durban Turf Club and everything points to a record season. And, of course, the glamorous "Derby," the premiere event in the racing calendar, will be the highlight of the meeting.

No one race has caused so much interest in the Union, and indications are, that this year's race would prove the biggest money-spinner, although there is a severe shortage of entries.

Fourteen of the best horses have entered the final acceptance to contest the cash prize of £12,500 in a race to be run over a mile and a half furlongs.

TAKE CARE IF YOU BUY AT CLARE

MR. ... Clare Estate and Durville Estate have declared ... for future European occupation and owners ... many Indians are seeking for residential sites in ... areas.

One such area ... which many Indians are turning their attention ... Clare Estate.

Prospective buyers are warned, however, that there exist on Clare Estate the problem of water absorption.

Over recent years many plots have been turned down by the Durban City Engineer's Department owing to the soil not being suitable for absorption of waste water.

Not only does this apply to plots submitted for new buildings but also in cases where plans are submitted for additions and alterations to existing buildings.

Prospective buyers are advised to ascertain for themselves whether the soil of the land they are interested in buying is suitable for absorption of waste water before ... or not.

They are advised to carry out a test of the soil to ascertain whether it conforms to the provisions of the City Engineer's Department.

MR. PAT POOVALINGHAM has rushed to the defence of his guru, Alan Paton, breathing fire and thunder. Forgetting the issue, he descends to getting personal about the writer of this column, even to the extent of alleging irresponsibility and dishonesty, and tossing in a piece of gratuitous advice to boot. FAMILY TERRORISED BY MYSTERY SPIRIT

Mr. S. G. Hansa, of Durban, who was host to Mr. and Mrs. Hare Rajpaul-one of the exclusive Orient Club at Esperanza last week, is seen with his guests at the entrance of the Club. Mr. Rajpaul-one advocated equal rights for all civilised people as a necessity for the development of industry in this country.

TERRORS and suspenses rained from the ceiling, garlands and wreaths made of beautiful fresh carnations hung on the doors, slices of bread have vanished, and fires have broken out in a spate of mysterious happenings at the home of Mr. Khan of Shallcross, Natal, whose terror-stricken family have endured sleepless nights since last Tuesday.

FIRST LEAD UP

Mother of six still in coma after West St. crash

MRS. SIVAGAMY MOODLEY, a 42-year-old mother of six children, of East Avenue, Durban, is still in a deep coma after she had been knocked down by a car driven by a European in West Street on the night of Thursday last while she was crossing the street after attending a Arts Ball show.

Her 17-year-old daughter Radha was also injured when she was knocked down by the car. She received bruises and slight injuries. She was discharged from the hospital three days after being admitted, but has not fully recovered from the shock.

Mrs. Moodley was admitted to the St. Aidan's Hospital and remains there at the accident her husband, Mr. K. Moodley has a stack of chips and has been able to attend to his [illegible]

SHE ASTOUNDED AUDIENCE

WITH [illegible] and humour, Miss Shakuntala Devie, the "Calculating Marvel" from Bangalore, India, was indeed the miracle of the modern age when she astonished an audience of about 1,000 with her amazing performance in mathematics on the Durban City Hall last Thursday.

A TOTAL of 28 shack dwellers in the Sea Cow Lake area have been served with notices to demolish their shacks by the end of July. So far 16 houses have been razed to the ground and the remaining 12 would be demolished at the expiration of the period of notice, the Chief Architect of the City Engineer's Department reported to the City Council's Housing Committee held recently.

NON-WHITE NURSES TO GET AWARDS

A WARDS involved following which will be the Durban City Council's annual awards to the most outstanding student nurse in the non-white examinations conducted at the King Edward VIII, St. Aidan's, Mayville, Addington, Mount Zion and St. Aidan's Verulam hospitals.

In addition to an award to the most outstanding nurse at the King Edward VIII Hospital, the runner-up at the hospital will also be given a cash prize of £5/5/-.

The same terms and conditions as apply to awards made to European student nurses at the Addington Hospital would apply to the non-European student nurses.

In April this year, the City Council appointed the Public Health Committee to examine the procedure of awarding the annual award of medals to White student nurses to other student nurses undergoing training in the various hospitals for non-whites in the City.

In its report, the Committee stated that there were some difficulties in the matter and in the light of the information to hand, the City Medical Officer of Health is to refer the matter of medical nurses to one of the various institutions, if necessary to the City Council for the purpose of the extension of the award.

Orient Islamic challenged to name Africans invited

IN extraordinarily militant language, the Orient Islamic Institute has seized issue on the question of Africans at its opening function. The Chairman in its reception Committee repudiates any suggestion that Africans were not invited. The Orient, he says, took great care to ensure that representative members of all sections were invited. Special care, we are asked to believe, was taken in regard to African invitations, and a large number of representative Africans, was invited.

JUNIOR LEADER

VANDALISM has broken out again in the now-European Municipal Library on Brook Street. Several years ago I reminded juniors about taking care of books they borrow. The warning seems to have had little effect, for a visit to the library one day last week made me very sad. Pictures were removed from new books, pages were "dog-eared" and words were underlined in pencil. This is really a sad state of affairs. There are, of course, a handful of culprits who give everybody a bad name. These members should be caught and struck off the library membership. Nobody needs them.

Rampath plays again and MARITZBURG WINS SEWPAUL CUP

By C. G. SHOOLEY

PIETERMARITZBURG won the Sewpaul soccer trophy for the second time last Saturday after beating the holders, Northern Transvaal, by two goals to one in a keenly contested game played before a large crowd at Hesmoloms Road. All the goals were scored in the second half, Rob Wagner and Bob Tiffin for the winners, and A. Hamilton for Transvaal.

Yanks to be wooed by tip-top soccer sides

THREE association football teams from the United Kingdom are competing in the most powerful football tournament now being played in New Zealand, writes Ron Turner. The tournament is an attempt to introduce football, which began in the U.K. about a century ago, to the United States of America. The teams are Barnsley, champions of the Third Division (North) last season; Grimsdale, champions of the Third Division (South) and Bournemouth, second in the North Football League last season and now Northern Cup holders. The tour is under the auspices of Glasgow Rangers.

FEDERATION MATCH ON JULY 31

SHOULD BE FIREWORKS AT FLOODLIT SOCCER

HISTORY will be made on the soccer when for the very first time Indoors in this country will play on a floodlit soccer match at South Coast Grounds, Lynwood, on Wednesday next.

The South Coast Grounds are the only grounds around Durnton on Durban and the officials are making sure that this gala occasion turns out to be a tremendous success.

Two combined crews present a better match than a meeting between Durban and South Coast.

The Grounds will be officially opened by Councillor Dr. Carmen Mitchell. Special arrangements have been made for transport and buses will run after the game to all local suburbs.

The main match will be preceded by a game between the Durban Indians and South Coast Indians.

South Coast have on record been rejected the Metropolitan Durban with strong opposition and with such outstanding players as Dhanpath Nadoo, Ram Samuels, Ajoon Ramchander, Ram Nadoo, and Ram mentioned new discovery Gordhan on M. Naicker on. They are determined to upset the favourites Durban upset.

At the time of going to Press only the South Coast team has been announced.

The forthcoming game has been arranged under the management of Mr. S. C. Chetty.

Mr. Naicker, A. Ramsamy, Ram Samuels, Kesso Ramchander, Bobby Naicker, T. Ramsamy, Ajoon Dhanpath, Nadoo, Ram Nadoo, and Gordhan.

The game is being run on well-planned lines and the officials are confident that a large crowd will attend.

PUPPET REGIME OF INDIAN SOCCER IS CRUMBLING FAST

THE "Puppet Regime" in Indian soccer has had it. The writing is on the wall for the puppeteers and the regime is fast crumbling. For those who pull the strings are now even unsure of themselves and while befuddled, frustrated puppets are looking askance at their gurus, virile new officials—men who know their own minds and act with the discretion and determination of leaders are taking over the reins. This is evident in the jig-saw puzzle of a picture our soccer presents today.

All India kick-off

THIS Saturday at Curries Fountain, one of the most important tournaments — the Junior All India Cup, is kicked off. A large crowd of enthusiasts is expected to watch the cream of the province's juniors in action.

In the main match, the two traditional rivals, Midlands and Coastals meet. This should produce some lively, exciting soccer. The encounter in this match is between Uplands and Coastals.

On Saturday 23rd, the senior eliminating rounds in this tournament will be held. Coastals will meet Uplands while Midlands meet Coastals.

Sunday promises to be the best day on the green for both the Junior and Senior Finals will be held.

Caring for passengers caused his death

WHILE protecting the lives of those in charge of the Durban-bound bus from Umkomaas, a 57-year-old driver of a Durban-bound bus from Umkomaas was killed when his own bus ran over him after it had been hit in the rear by another bus in Solomon Road last Tuesday morning.

The conductor of the bus, Mr. K. Naidoo, sustained injuries including a fractured ankle and about four passengers also received slight injuries.

The bus was stationary when the accident took place.

It is understood that while the bus was on its way to the city, it developed some trouble with the brakes and as a result Mr. Dennison decided to shun the wheels in Solomon Road and transfer the passengers to another bus.

He feared that if he continued to drive, he would endanger the lives of his passengers.

The impact of the bus ran over the bus driver and he was killed instantly. Mr. Dennison and Mr. Naidoo

Mother-in-law menace:- Young wives' tales of victimisation

MOTHERS-IN-LAW have always been the subject of jokes, but the manner in which some of our Indian mothers-in-law carry on is no joke for many daughters-in-law who say they have been made to suffer cruel and often inhuman treatment at the hands of their husband's mother.

Since "The Leader" published a story some weeks ago of a young married woman whose arms were poisoned by her mother-in-law while her young brother-in-law struck her with a piece of wood, numerous wives have called personally at this office to relate how they have suffered at the hands of their mother-in-law.

Most teachers, I know, will try to keep warm this winter doing elbow exercises and those "last minute" who delayed last term are sure going to get a thorough drubbing where it hurts most. Some teachers have a gift for stroke play, and I have often wondered if there were not an unpublished cricketers' Hall-cates some painful memories of my own, and as they say on cricket, he was an out-and-out chucker. His arm was dead-and he was the type who kept on attacking the stumps. And when he clean bowled you, you were out for the count. It was carried out of the classroom once or twice.

Doctors have certainly changed today. Injuries are more modern, but you just try and take things easy and you will realize gratefully that even Godfrey couldn't throw a fast one.

THE

SOUTH PIER FOR TOURNEY

THE South Pier at Amanzimtoti is to be used for European anglers, for the first time. Seats are being erected on the pier to accommodate 30 visitors from the Southern Transvaal.

Mr. C. Brockman, Natal Manager of the South African Railways and Harbour Administration, has given permission for the Natal Sea Fishing Association to hold their annual competitions there for the Southbroom Angling Trophy.

According to Pat Scott Rankin, the pier is an unprecedented 565 yards in length. Seats will be erected on the pier for the use of visitors.

AVALANCHE OF GOALS SHATTERED ACES.

THERE was absolutely no doubt about it. The brilliant kingpins of Transvaal soccer, Marsiek Swallows, shattered the local soccer ideals, Aces, in a devastating "blitzkrieg," and lathered them to kingdom come. From a bright start with an opening goal from Ronnie Green, Aces were reduced to a shambles to the tune of 8 goals to 2.

Before a crowd gazing over £900, Aces were completely outclassed gone was their goal-getting stride, their scientific combination, and their stout-hearted defence.

But this in no way should detract from the superb, sizzling science of the Swallows, who came, saw and conquered with a devastating will.

But for all Aces consoling accolades before the shattering onslaught, the game was without an element of excitement, electrifying us of interest.

The fans got their money's worth. To put it in a nut-shell THIS WAS FOOTBALL.

Changing their tactics from their previous game, Swallows played an open game and were at the Aces mid-senate immediately after the kick-off. But the ball swung down with Aces' backs and within about two minutes of the start Ronnie Green nipped in a pass from Pepsie Xaiva to open the scoring.

Swallows, replied with a pressure series of attacks from Romeo Singh, Lionel Bonnet and Sepsie Xaiva and it was no fault Swallows soon and should have the ball at Aces' mid-field but Swallows' solid combinations soon began to tell.

The usually forceful attacking Aces' forwards were on the run much to their detriment. It was not long before the first goal came from that brilliant inter-trio Ephraim Mbatha, Bertie Kalthune. Two more goals were added to the Swallows' score before the interval.

In the second half, Aces made a determined spurt, but only for a moment. They fell back on the defensive again. Ronnie Green and Lionel Bonnet were far below form, and were thoroughly bamboozled by the tricky backs of the Swallows' forwards.

It was only through the stout efforts of Blondie Campbell, Sydney Collier and Sepsie Naidoo that the runs were checked. But once they got through there was no stopping them and soon they had their fourth goal through Callton Mabe who turned in a beautiful exhibition.

The game switched momentarily back to Aces' areas but Pepsie Sepsie Maxie and Strapp Moodley were lost on the evening on the bad Mondoe defence.

Only once did Ronnie Green get through and when he did he gave Aces their second goal. But after that determined rallies, Aces tried to crumble completely outmanoeuvred and not controlled.

The sixth goal for Swallows was the turning point as Aces suffered right back. Efforts dwindled and a Swallows remained at a well-balanced defensive team, the goals piled on and had the game been on longer the score could have been greater than 8 - 2.

In an interview after the memorable game, Aces' trainer-manager Eddie Naidoo said summed up the game when he said, "We Aces are sincere we were beaten fairly and squarely by superior footballers."

A NERVE-WRACKED DESPONDENT PAPWA DOES IT AGAIN

A FEW WEEWS AGO, Mr. Louis Nelson, chairman of the Papwa Fund, received an urgent letter from his overseas advisers asking him to arrange for Papwa's immediate return. The letter stated that he was suffering from "serious neurosis" and had lost many pounds in weight after his failure in the Daks Tourney. After his disastrous British tour, information was received that Papwa became very despondent and kept repeating that he had let everybody down in South Africa.

GATE RECORDS SHOULD GO

WE knocked no more great soccer clashes during the recent weeks that no one match can particularly be called "The Match of the Year." But call the forthcoming Blackpool-Moroka Swallows match what you will, for one thing it promises to be a real soccer feast. Both teams will have an opportunity to witness a brand of soccer which they will not have for many years.

And we can thank the Wanderers Football Club for bringing this great clash to Durban. They have spent a lot to stage it.

This is the highest sum ever spent on the entertainment of a non-White match in South Africa. But such is the confidence Durban clubs in both teams that the Stars officials are confident of not only getting back their money but of enjoying the proceeds.

Both teams have become very popular in Durban in the course of the two Durban games. They have showed beyond doubt that they are two of the best clubs in the country.

Affiliated to the Johannesburg Bantu Football Association both teams have men who have already played for the national Coloured and African sides.

Such outstanding players as Nameless "Sailor" Pitje, "Gamble" Adams, Arthur Molefe, Job Nekas, Policeman Mbatha and many others will be on view and no true soccer fan can miss such an opportunity.

To a certain extent in the big game, Lower Tugela who have been going great guns recently, have a go at the crack Durban side.

INDIA JOINS ATOMIC POWERS

ONE of the most progressive examples of scientific industrial co-operation between two Commonwealth countries—Canada and India—is the building at Trombay, near Bombay, of a research engineering test reactor, due to be completed this year.

India has vast potential supplies of nuclear fuels, such as the thorium and the uranium found in the sands of Travancore-Cochin, but she has required assistance in the development of her atomic energy programme. Assistance that has been generously forthcoming from Canada under the Colombo Plan.

The Trombay reactor, known as the Canada-India Reactor (a modified version of the NRX reactor which has operated at Chalk River, Ontario, since 1947, is fully shielded, i.e., is a "pile" that when in operation, heavily radiated and lethal to anyone not protected by a thick wall of concrete, steel, or other material, and is designed to operate at a maximum power of approximately fifty thousand kilowatts.

HIGH EXPECTATIONS

It is from these many functions to develop fundamental research in physical, chemical, biological and medical sciences, to provide trained personnel for the Indian Atomic Energy Establishment and other Colombo Plan countries in South and South-East Asia, to develop techniques and train workers in industrial applications of radioactive isotopes in industry and for peaceful purposes, and to train scientists in the use of nuclear reactors.

It is from the research that the engineering test reactor at Trombay is expected to yield considerable information that will be of great value in the design of a complicated ventilation system at Trombay, and the general use of fool-proof safety precautions.

WATER PROBLEM

Another difficult problem was that of water cooling. For, unlike the Canadian reactor, which takes cool water direct from the Ottawa River, only the very warm and somewhat radio-active water from the cooling tower is available at Trombay.

Thus it was necessary to design and install at Trombay a special heat exchanger which could cool the water in the reactor and transfer the heat to sea water in a separate circuit, employed for boiler make-up and export water alone.

Three and some provision is made for a fourth. Each reactor is to be of 40 megawatts and Indians working together.

At the same time, Dr. Bascom would be busy. Every few months for a period of 12 months in all places on the operation of the reactor and of some of the research.

As the Minister of Defence Production, Mr. Howe, when announcing the Canada-India agreement in the House of Commons, said: "Under the agreement the Canadian contribution will be in the form of services and equipment or heavy water or uranium as far as the Canadian contribution is concerned. The Indian contribution will be in rupees, which will be used for the local costs of the project."

Mr. Howe said that the Canadian Government had been informed by the Government of India that the reactor was required for research purposes only and that India had no intention of producing atomic weapons.

ASIA SETS THE LEAD

THE election of Mrs. Sirimavo Bandaranaike as Prime Minister of Ceylon has captured the attention of the world. In an age when her sex—the fairer sex—is making great strides in the emancipation of women and their recognition as the equals of men, it is still a unique achievement for a woman to be elected Prime Minister of a country.

And it is unusual that it should be the Far East, where much has achieved this distinction, for not in a long start in so far as the emancipation of women.

Madame Pandit, Begum Liaquat Ali Khan, Mrs. Indira, Mrs. Sun Yat Sen, and now Mrs. Bandaranaike in recent years, blazed the trail of the emancipated women.

Madam Pandit became the first woman to be at President of the United Nations General Assembly. Mrs. Bandaranaike becomes the first woman to be the Prime Ministership of any country in the world.

It is something of which Asia may [illegible] proud. Who knows, the time may [illegible] when male dominance will be overthrown, and the rest of the world may be ruled by women prime ministers.

Who knows what a difference it [illegible] the world if [illegible] had been Prime Minister of Great Britain and Russia instead of prime ministers and the United States a woman. Men have made quite a bad job of things [illegible] in the art of war, maybe the world [illegible] a better place if women had been in charge.

We salute Mrs. Bandaranaike and [illegible] full term of office.

Candid Commentary . . . by Politicus

This was small talk from a big man

THE Professor of Comparative Education at the University of London, Dr. J. A. Lauwerys, had some nasty things to say at the NEIs Conference which he was invited to open. The Professor is one of a group of visiting dignitaries who attended the University of Natal Conference on Education. What the Professor had to tell the Indian teachers was honorable mention over the SA.B.C. Small wonder! For, listen to the Professor and his small talk.

But here is a pertinent comparison, and one the Professor should know of, indeed, he does and already known it. Dr. Sheila E. van der Horst, senior lecturer in the Department of Economics at Cape Town University says on Options, the Anglo American quarterly review:

"According to one estimate the average European in South Africa receives ten times the African, seven times the Coloured and five times the Indian on South Africa's average income."

MORE SPORTING FACILITIES

"I THINK Indians are law-abiding citizens and I can assure you that you will soon get more recreational facilities," Councillor Leonard Shearer at the initiation of Bowling on the South Coast Indian grounds last Wednesday night.

Dr. Shearer said: "Never in the history of Natal has so much been done for the Indian community as by the present Provincial Council. Take for instance the M.R.R. Road, the Sastri College, the Indian Hospital, the Indian Technical College and the Indian Museum. Recommendations are made regularly by the Council and Executive Committee to the Provincial Administration for the provision of more sporting facilities for the Indian community. Only recently I made representations to the Minister of Education, Arts and Science, Mr. Lawrence, for the provision of a swimming bath for Indians in Durban. I am hopeful that the Minister will look favourably on the request."

Improving Mark Twain can win gruelling Gold Cup

By "AMBASSADOR"

SATURDAY will mark a big day in racing with the running of the Durban Gold Cup Handicap — the Union's premier race test for stamina. Apart from the "Lids" no other race is so much coveted by the racing profession, and so much enjoyed by racing fans as the marathon Gold Cup run over two miles.

It has become almost an accepted racing axiom that "Gold Cup Luck" is the meeting of the best and indeed the first in finish a tremendous test for a horse over the gruelling two miles, and I cannot recall a non-stayer being among the Gold Cup

Swim bath entry fees reduced

(GREAT news for swimming enthusiasts is the reduction of admission prices to the Balmoral Swimming Bath. The prices now for all non-European swimming baths is one penny for children and twopence for adults.

It is expected that this reduction in prices will result in bigger attendances at the baths, during February and March of last year the attendance at the Balmoral Swimming Baths dropped by 40 percent, according to the Beach Department.

The cause was thought to be the high admission prices.

The Natal Indian Swimming Association has made a strong plea to schools and sports associations to take full advantage and to use the baths more frequently.

SPOTLIGHTS TROUBLES IN THE SOCCER WORLD

THE soccer world is simmering with trouble. Feelings are running high and there is talk of secessions, suspensions, resignations, and even MURDER. For the most part the skirmishes are being reserved to the Council Room, the only thing that is being murdered is the game itself as evidenced in the farcical All India Cup tourney over the weekend.

CLAIRWOOD THREATENED BY ROAD

ALL the public institutions of Clairwood, Durban, which served the needs of about 40,000 Indians in the area for more than 50 years, are to go if a plan envisaged by the Durban City Council to realign national route No. 2 from the Umbilo Canal to the Bluff Railways line, near Collingwood Road, is implemented.
